

## GREEKS CALLED TO THE COLORS

Great Enthusiasm Follows Call For 20 Classes of Greeks to Mobilize.

## MOBILIZATION IS REPLY TO BULGARIA'S RECENT MOVES

Bulgars Work Feverishly Upon Black Sea Fortifications, Fearing Russian Invasion if She Joins Central Nations—Russians Recapture Fort Lost to Austrians and Drive Foe Back—Holding Germans in Check at Nearly All Points.

By Associated Press.  
Athens, Greece, September 24.—A decree for general mobilization of 20 classes of Greek soldiers, signed last night by King Constantine, was promulgated today. The decision of the king has aroused the greatest enthusiasm.

Issuance of the decree came quickly after the king had granted an audience to Premier Venizelos, who informed the king that mobilization was the only possible reply to Bulgaria's move.

The sovereign agreed, stipulating that it should be regarded as a defensive measure.

The classes of 1892 to 1911, now called to the colors, are in addition to the four classes already under arms.

Diplomatic circles here have been informed that Bulgarian warships on the Black Sea have sought shelter.

Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports.

The valuables of the branches of the national bank have been removed to Sofia.

The belief has been expressed in Bulgaria that if that country arrays itself on the side of the Teutonic allies, Russia would attempt an invasion through the port of Varna. 30 hours' sail from Odessa.

London, September 24.—Military activities on the eastern front are once more assuming the familiar phase of a slow German advance, following the recent impetuous rush of the invaders.

The German plan of dividing the Russian armies north and south of the Pripiet has been a strategic success in a way, but the immediate effect of the severance was to throw an increased burden on the Austrians, who seem unable to check the Russian drive.

Unofficial dispatches from Petrograd state that the latest Russian victory, northwest of Dubno, is of more importance than was revealed by the official communication from Petrograd, involving the recapture of Lutsk, northwest of Grodno.

Relinquishing this fortress, the Austrians are said to have retired across the Styra.

All the way from the Baltic port of Riga to the Pripiet marshes the Russians are holding their line stubbornly.

It is generally believed that the Germans have determined to capture Riga before the onset of winter.

Paris, September 24.—A message from Sofia makes the definite announcement that mobilization of Bulgarian military forces, reported to have been postponed, has been decided upon.

Berlin, September 24.—Field Marshal von Hindenburg has made further progress in his efforts to

capture the Russian fortified city of Dvinsk.

The taking by storm of an additional Russian position defending the city northeast of Smolna is officially reported today.

## MORE THAN 6 BILLIONS

By Associated Press.

London, September 24.—Without taking into consideration the expected increase from further returns, the figures on the subscription to the third German war loan show that the total subscription to the war loans of the empire, since the beginning of the war, have reached the huge sum of \$6,272,500,000.

## BIG STEEL PLANT CHANGES HANDS

By Associated Press.

Philadelphia, September 24.—The Midvale Steel Company, one of the largest so-called independent concerns in the country, employing 5,500 men, was sold today for \$19,000,000 cash to purchasers whose identity was not disclosed.

## THREE DIE IN WRECK

By Associated Press.

Plattsburgh, Nebraska, September 24.—Three trainmen were killed and four others seriously injured today, five miles north of here on the Missouri Pacific Railroad, when a southbound passenger train, from Omaha to Kansas City, met a northbound freight, head-on.

All the passengers escaped with minor scratches. Misunderstanding of orders is believed to have caused the accident, which occurred on a sharp curve.

## SOLONS ON LOOKOUT

By Associated Press.

Chattanooga, Tenn., September 24.—The general assembly of Ohio held a brief session on the summit of Lookout Mountain today, with a majority of both houses present.

Presiding Officer Arnold of the Senate used a pile of cannon balls for a chair, while Speaker Conover's rostrum was a cannon. A roll call showed 82 representatives and 25 senators present.

A straw ballot taken on the train showed that 59 members of the assembly are opposed to the McDermott liquor license law, and 37 in favor of it.

A similar vote on the Sprague gerrymander bill resulted in 51 affirmative and 41 negative votes.

## SEEK RELEASE OF GOODS WORTH \$167,000,000

By Associated Press.

Washington, September 24.—The British government is preparing to receive applications unofficially, through the foreign trade advisors of the State Department, for release of \$167,000,000 worth of American owned goods, of German and Austrian origin, held at Rotterdam by the British order in council.

At the request of the trade advisors, the British embassy here will submit a written statement of the condition under which goods will be released.

Negotiations have been in progress for months unofficially, seeking release of the vast quantity of merchandise consigned to American importers and already either paid for or contracted for under agreements which make the American buyers liable for payment.

## 14-YEAR-OLD BOY LYNCHED

By Associated Press.

Jackson, Ga., September 24.—Joe Pearson, a 14-year-old negro boy, was hanged here today for assaulting an eight year old white girl.

To the 50 persons around the scaffold, he admitted his guilt, and stoically announced he was ready to die.

## ESTIMATES 450,000 MURDERED

By Associated Press.

New York, September 24.—

Dr. Simbad Gabriel, president of Armenian General Progressive Association in the United States has received from Nubar Pasha, diplomatic representative in Paris, of the head of the Armenian church, advices in regard to the massacres of Armenians in Turkey, in which it is stated that "Christian martyrdom has at no time assumed such colossal proportions."

The letters contain an appeal to the United States "to intercede and stop the persecutions."

Dr. Gabriel estimated that 450,000 Armenians had been put to death and 600,000 rendered homeless or exiled, out of a population of 1,500,000.

"What has occurred in a few months in Cilicia and Armenia," wrote Nubar Pasha, "is unbelievable. The great massacres of Abdul Hamid seem insignificant compared to the recent atrocities, which are without precedent in the history of our nation's martyrology."

## TWO VESSELS TORPEDOED

By Associated Press.

Washington, September 24.—The British horse ship Anglo-Columbian was torpedoed by a submarine off Fastnet today, Consul Frost cabled.

London, September 24.—The British Harrison liner Chancellor, 4500 tons, engaged in trans-Atlantic trade has been sunk.

Part of her crew was saved and search is being made for the others. It is reported there were passengers.

## THREE BILLION SUBSCRIBED

By Associated Press.

London, September 24.—The total subscriptions to the new German war loan is given by press dispatches from Amsterdam at \$3,007,500,000.

**GEORGE B. MCCLELLAN**  
Former Mayor of New York Back From European War Zone.

Photo by American Press Association.

## INSURANCE FRAUDS ARE UNCOVERED

By Associated Press.

Cincinnati, September 24.—Harold Switzer, aged 19, was arrested here today and made a statement, the police say, concerning his connection with the case of Robert C. Strang, who it is claimed by the police is under arrest in New Orleans after having supposedly been drowned here and after his wife is alleged to have collected considerable insurance from policies made out on Strang's life.

Mrs. Strang was arrested in Youngstown and brought to Columbus today.

Switzer told the police that the entire proceedings were "framed up." He said that he took Strang on a motor boat ride; that he put him off near Anderson's Ferry where he boarded a train for the south; that he (Switzer) then brought the boat into harbor and reported that Strang had been drowned.

He said he received \$200 for his part. Switzer stated that the reason Strang wanted it to appear as though he had been drowned, was that he was losing money on a contract to build a Moose temple here and could not complete it.

## GEN. MADERO IS ARRESTED

By Associated Press.

San Antonio, Texas, September 24.—General Raoul Madero, of Villa's staff, has been arrested by American soldiers near Marfa, Texas, according to a report to Major General Funston from Marfa today.

According to a report to Major General Funston from Marfa today.

With Madero were eight companions, all supposed to be Villa officers, who were also arrested.

They were taken into custody when they crossed to the American side of the Rio Grande.

## ARCHIBALD TO ESCAPE

By Associated Press.

Washington, September 24.—James F. J. Archibald probably will not be prosecuted by the Department of Justice.

Some officials here say there is no statute covering his case.

## U.S. TROOPER IS KILLED

By Associated Press.

Brownsville, Texas, September 24.

Mexicans today attacked a detachment of United States soldiers at Progreso, 40 miles west of here, and killed Private Stubblefield, of Troop B, 12th United States Cavalry, according to advices received here.

Two other soldiers were wounded. The Mexicans approached from the direction of the Rio Grande, one mile distant from the hamlet. The American detachment which has been on duty at Progreso since its recent fight, when a soldier was killed and an officer wounded, was camped in front of a house.

The Mexicans opened fire and Private Stubblefield fell at the first volley. The soldiers returned the fire, moving rapidly toward the Mexicans and firing every time one showed himself. The Mexicans retreated into the brush.

## BANKERS ACCEPT

By Associated Press.

New York, September 24.—Members of the Anglo-French commission, it was reported today, have accepted the principal suggestions of American bankers on the proposed credit loan.

These suggestions are: The amount to be \$500,000,000, or possibly a little more; the price to investors to be slightly below par; notes to run for five years, convertible then into ten or fifteen year Anglo-French bonds bearing four and one half per cent interest; Russia probably to be eliminated as a participant.

## MARRIAGE LICENSES

Wm. Bruce, 21, farmer of Highland county, and Ruth Ethel Simons, 24, of Green township.

## HOW GERMANS STAMP OUT TYPHUS IN RUSSIA.

Photo by American Press Association.

Each case of the dread disease is carefully handled by the German invaders. Here is a house in Poland where the inmates were stricken. "Typhus" is marked on the building, and a soldier stands guard outside.

# GREAT SENSATION IS SPRUNG IN GREENFIELD

Courtesy The Greenfield Republican.

The above cartoon, by Greenfield's talented artist, Mr. Gadbury, appeared in Friday's issue of the Greenfield Republican and graphically depicts the present status of affairs in Greenfield, where consternation reigns over the issuance of more than 100 affidavits against 38 persons, charging violation of the liquor license laws.

The avalanche of affidavits is a result of the work of a Court of Inquiry instituted by the State Liquor License Commission and which was attracted to Greenfield by the efforts of Mr. Oscar White, of the Greenfield Republican, who is well known to many Washington and Fayette county citizens, and whose work in turning the spot light upon Green-

field's lawless element has been watched with a great deal of interest by local citizens.

As a result of the work of the two men forming the court of inquiry, wholesale arrests are now being made, and there has been a general exodus of some of the chief offenders, several of whom are said to have purchased tickets for this city.

So thorough was the work of the court of inquiry that eighteen affidavits were issued against one offender, and it is expected that when the "big drive" is ended, Greenfield will be minus several of her most notorious citizens and the Cincinnati workhouse will hold the bulk of them.

The cases will be tried before

Mayor Durant, of Greenfield, and the fine upon each count is expected to be \$200 and the costs, and the Aiken tax will apply whenever possible. Copies of all affidavits will be placed in the hands of Federal officials and the violators must answer to the revenue authorities.

The investigators stated that other lawlessness, over which their department has no control, abounds in Greenfield, and this will probably be given attention by other authorities.

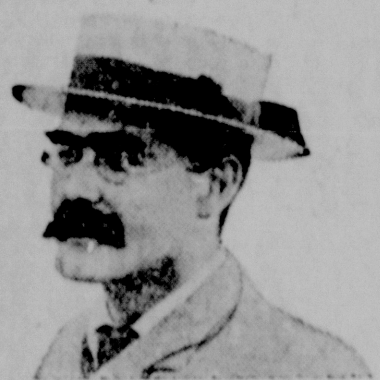

When the fight was launched it is understood the Mayor stated that if crime was pointed out he would do his official duty in assessing punishment, and the eyes of all are now centered upon him as to what disposition he will make of the 38 cases to be brought before him.

It will serve. There is a mark well known to the world by now which they have left for a visible seal to their doom.

When they first set the place alight there were some hundreds of their wounded in the cathedral. The French saved as many as they could, but some had to be left. Among them was a major, who lay with his back against a pillar. It has been ordained that signs of his torment should remain. An outline of both legs and half of his body is printed in greasy black upon the stones. There are very many people who hope and pray that it will be respected, at least, by our children's children.

And in the meantime Rheims goes

## SHELL BATTERED RHEIMS AS DESCRIBED BY KIPLING

RUDYARD KIPLING.

NOTE—This is the second installment of the Second Series of articles from the pen of Kipling. Others will be presented on this page in rapid succession.

Anywhere you please you shall find the same observation post, table, map, observer and telephonist. It is always hidden, the guns are always ready, and the same smeared wisp of trenches is smoking and flaring from Switzerland to the sea. The handling of the war varies with the nature of the country, but the tools are unaltered. One looks upon them at last with the same weariness of wonder that the eye receives from an endless repetition of Egyptian hieroglyphics.

### Symbols of the Conflict.

A long profile with a lump to one side means a field gun and its attendant ammunition case. A circle and a slot stand for an observation post. The trench is a bent line studded with vertical plumes of explosion. The great guns of position, coming and going on their motors, repeat themselves as scarabs, and man himself is a small blue smudge no larger than a fore-sight, crawling and creeping or watching and running among all those ter-

rible symbols.

But there is no hieroglyphic for Rheims, no blunting of the mind at the abominations committed on the cathedral there. The thing peers upward, maimed and blinded from out of the utter wreckage of the archbishop's palace on the one side and a dust heap of tumbled houses on the other. They shelled, as they still shell it, with high explosives and with incendiary bombs, so that the statues and stonework still in their places are burned the color of raw flesh. The gargoyles are smashed, statues, crockets and spires tumbled, walls split and torn, windows thrust out and all tracery obliterated. Wherever one looks at the tortured pile there is mutilation and defilement, and yet it had never more of a soul than it has today.

Inside, "Cover yourselves, gentlemen," said the sacristan; "this place is no longer consecrated." Everything is swept clear or burned out from end to end except two candlesticks in front of the niche where Joan of Arc's image used to stand. There is a French flag there now. The last time I saw Rheims cathedral it was in a spring twilight, when the great west window glowed and the only lights within were those of some candles which a penitent Englishman had lit in Joan of Arc's honor on those same candlesticks. The high altar was covered with carpets, the pavement and tiles were cracked and jarred out by the rubbish that had fallen from above, the floor was gritty with dust of glass and powdered stone and little twists of leading from windows and iron fragments. Two great doors had been blown inward by the blast of a shell in the archbishop's garden until they had been bent grotesquely to the curve of a cask. There they had jammed the windows.

### Rheims but One Altar.

But the record has been made and will be kept by better hands than mine. It will last through the generations in which the Teuton is cut off from fellowship with mankind and through all the long, still years when the war of the body is at an end and the real war begins. Rheims is but one of the altars which the heathens have made on which to commemorate their own death throughout the world.

about what business it may have with that iron nerve and endurance and faith which are the new inheritances of France. There is agony enough when the big shells come in. There are pain and terror among the people and always fresh desecration to watch and suffer. The old men and the women and children drink of that cup daily, and the bitterness does not enter into their souls. Mere words of admiration are impertinent. But the exquisite quality of French civilization has been a marvel to me throughout. They say themselves when they talk:

"We did not know what the nation was. Frankly, we did not expect it ourselves, but the thing came, and you see we go on."

Or as a woman puts it more logically:

"What else can we do? Remember, we knew the boche in '70, when you did not. We know what he has done in the last year. This is not war. It is against wild beasts that we fight. There is no arrangement possible with wild beasts."

This is one vital point which we in England must realize. We are dealing with animals who have scientifically and philosophically removed themselves inconceivably outside of civilization. When you have heard a few tales, only a few tales, of their doings you begin to understand a little more. When you have looked long enough into the faces of the women you are inclined to think that the women will have a large say in the final terms. They have earned it a thousand times

## FIVE WOMEN IN ACCIDENT

Cambridge, O., Sept. 24.—Miss Besie Landus, twenty-five, milliner of Byesville, is said to be dying and five other occupants of the automobile which she was driving were injured when the machine overturned on a steep hill. Miss Landus, Mrs. W. V. Hildebrandt, her daughter Anna, and Mrs. A. C. Andrews and five-year-old daughter were pinned under the machine. All live in Byesville.

## SERIOUS FIRE

Akron, O., Sept. 24.—Half of the northwest section of Doylestown, twelve miles from Akron, was swept by flames which wiped out Pettit Brothers' mill, the Presbyterian church and the residence of Mrs. Charles Drifan, and partly destroyed the Lutheran church, Albert Frath's livery barn and three other residences. The loss is placed at from \$75,000 to \$100,000.

## BACK TO N. Y.

Cleveland, Sept. 24.—After two months' stay at his home at Forest Hill, John D. Rockefeller left Cleveland to return to his New York estate at Pocantico Hills. Mr. Rockefeller appeared in good health.

## Fall Trade Is Opening

Trade is a sensitive thing and is stimulated or depressed by happenings of comparatively little consequence. In fact and logically too, trade is as sensitive as the people who trade.

Nothing is more marked and more direct in its effect upon the temperament of the average human being than changes in the weather. Consequently weather conditions have a marked influence on trade in all lines.

The dry weather of the past two weeks followed by a touch of Jack Frost's breath Tuesday and Wednesday nights, has encouraged the people and sent the blood coursing through their veins more rapidly. They feel better physically and are more at ease regarding the future. That means that they are thinking of buying and are buying.

In woollens and dress goods and fall stocks in all other lines the increase in trade is already marked.

Weather conditions now are ideal to encourage people as to crop prospects and stimulate them to action.

The effect upon individuals and trade therefore has resulted in a marked improvement.

Individuals are busy buying and merchants are busy catering to their demands and desires.

## Traction Companies Jolted

The opinion given by Attorney General Turner to the highway department of the state is calculated to create consternation among the owners of interurban traction properties in Ohio and, judging by the opposition which greeted the announcement of the opinion, it has fully met all expectations in that regard.

The attorney general holds that while the County Commissioners had a right to grant franchises to the traction companies under which they located tracks and now occupy the space, the County Commissioners were without the slightest power to barter away the larger right of the public to a free use of the highway in such manner that conditions made it necessary to use and occupy the highway. No franchise rights that were in the power of the County Commissioners to award and bestow impinged in the slightest the sovereign power of the state in its protection of the larger rights of the public to the use of the highways, to exercise its police power over the highways and state the conditions at all times that must be observed to best serve the public to whom the highway was dedicated and for whose accommodation it is to be maintained. Nor was there ever, at any time, even the color of law to make possible the expenditure of the funds of the state highway department for the relocation of the tracks of a private corporation that claimed to have rights on the highway.

The opinion will effect all interurban roads with tracks on the state highways whenever the question of paving and improving the road comes up, and in effect means that where a highway is improved the interurban companies whose railway tracks run along the highway may be forced to relocate their tracks in the center of the pike, pave between the rails and for a foot out on the outside of the rails. The cost to the traction companies, if the ruling is enforced, will be tremendous, but the benefit in a reduction of cost to the users of the highway and the public generally will also be marked.

While the matter of cost is worthy of consideration, both by the companies and by the public generally, there is the added danger to the users of the highway which should not be overlooked.

To locate a traction railway through the center of a public road will add materially to the danger of accidents. The traveling public will be forced much closer to the rapidly moving cars and the danger of collision between traction cars and users of the highway multiplied many times.

It is doubtful if the assistance to be forced from the owners of traction companies to paying the cost of highway paving will compensate for the increased danger to traffic.

## Federal Government Should Control Quarantine at Port of New York

By WILLIAM HOWARD TAFT, Former President of the United States

THE public health service conducts fifty quarantine stations in this country at all large ports excepting New York, now that the transfer of the Boston station has been accomplished. IT HAS AGENTS IN EVERY IMPORTANT AND DANGEROUS PORT OF THE WORLD, WHO CONSTANTLY REPORT ON HEALTH CONDITIONS AND ISSUE WARNINGS.

The quarantine at New York, however, is intimately our affair. Its conduct is now practically of national concern. It grows out of and is part of foreign and interstate commerce.

This is not simply a New York matter. New York is the biggest city we have, and the quarantine station is one through which the greatest number of people pass. But they do not stay in New York. They go on to the rest of the country, and therefore the whole country is interested that this service should be conducted by a government which the country controls.

We are not criticising New York's health department. It is an admirable department. The health law of New York is the best health law in the United States.

\*\*\*

BUT UNDER THE CONDITIONS WITH THE SYSTEM WHAT IT IS IT CANNOT BE SO GOOD, IT CANNOT BE SO EFFECTIVE AS IT COULD BE PART OF THE NATIONAL SYSTEM.

## Poetry For Today

## PEACE INVIOABLE.

Through a valley of blackest night,  
With no single star to guide me,  
I could struggle back to the light,  
If my love but stood beside me;  
And my love—in storm or in stress,  
Fortunes frowning or beguiling,  
Though Fate punish, or caress,  
He shall look—and find me smiling.Pray what can sadden the heart  
When one lives, and loves and is young?  
Shall the sudden teardrops start  
At the stab of a venomous tongue?  
Shall one sigh for the lack of wealth  
When the heart holds hidden treasure,  
When the blood in one's veins spells "health"  
And the feet trip Love's own measure?Nay, life shall flow like a song,  
With a sweet refrain to charm us,  
No grief shall prevail for long;  
Nor evil have power to harm us.  
Who cares for the winter's cold,  
Or the heat of summer weather?  
'Tis long while yet to grow old—  
And we'll travel the road together!

—New York Times.

## VIOLENT DEATH

Springfield, O., Sept. 24.—Lawrence Bosley, superintendent of the fire alarm system, fell forty feet from a telegraph pole and suffered internal injuries, which caused his death.

## First Talking Machine.

The recording of vibrations of a membrane—a first accomplished by Leon Scott in 1857, by the invention of what he called a "phonograph." This is regarded as the precursor of the modern phonograph. The actual reproduction of sound was first achieved by Thomas Alva Edison in 1876 and first patented by him in 1877, the patent being dated in January of that year. There had been, of course, several experiments and improvements between. The first method of recording vibrations of a tuning fork on the surface of a drum was discovered by Thomas Young in 1807. Alexander Graham Bell and S. Tainter patented the graphophone in 1885. Emile Berliner patented the gramophone in 1887.

## Luke McLuke Says

A wife knows it must be a clutch to have nothing else to do but sit around an office downtown. And a husband knows it must be a pipe to have nothing else to do but stay home and wash a few dishes.

A man with a red nose hasn't any business laughing at a girl because her cheeks are painted.

There are lots of honest men in the world who wouldn't steal less than \$50,000.

The only sure thing we know of is that you can bet that a man doesn't know what he is talking about and win your bet.

What has become of the old fashioned man who used to yell "Supe!" when a stage hand came out on the stage to move a table or some chairs?

A man can have a lot of confidence in his wife about other things. But he is always afraid that she is going to forget to put his handkerchiefs in the laundry.

You always console yourself with the reflection that if you were rich you could do a lot of things to make others happy. But you do not have to be rich to bring happiness into the lives of others. Every time you pat a little tad on the head, or smile at a baby in the arms of a tired mother, or buy a bite for a poor cuss who used to have money, or slip a dime to a cripple, or tell a consumptive that he is looking fine, or kiss your wife, you are dispensing about nine billion dollars worth of happiness.

Don't growl. Frisk your conscience and sit down and think it over, and maybe you will discover that you are happier than you deserve to be.

DONAHEY  
REFUSES  
THE COIN

Columbus, Sept. 24.—Under a ruling by Attorney General Turner, State Auditor Donahey must issue pay warrants on the state treasury for some \$300 worth of groceries and flowers and for dance music at the Ohio building at the Panama-Pacific exposition. Donahey had refused to pay the bills on the ground that the grocery bills contained item for liquors and high priced delicacies. The official explanation of Newton M. Miller, Ohio's managing commissioner at the fair, was that the liquor had been bought for "medicinal purposes" and that the balance of the purchases were used in the Ohio building.

Mr. Donahey still refuses to pay the entertainment bills. Following Mr. Turner's ruling he wrote Commissioner Miller as follows: "The law requires that the Ohio building be used for exhibit purposes and not as a hotel, and no bills of the character of those already rejected will be approved in the future by the state auditor."

STATE FAIR  
LOST MONEY

Columbus, Sept. 24.—The board of agriculture may experience difficulty in obtaining \$20,000 from the emergency board to make up a deficiency due to the State fair. At least one member of the emergency board, State Auditor Donahey, will oppose granting the appropriation. The total fair expenses was \$110,000. Receipts were about \$82,000.

## ATTENTION.

The John M. Bell Post No. 119, Department of Ohio G. A. R. will meet in regular session on Saturday the 25th of September, 1915, at 2 o'clock. All members are requested to attend.

JOHN HARTMAN, P. C.  
J. W. KNEDLER, Adjt.NEW CORN  
CURE PRINCIPLE

Dr. Hunt's Wonderful Penetration Method. PRICE ONLY 10c.

It remained for Dr. Hunt of Sidney, Ohio, to solve the corn problem. Folks had tried other remedies with only partial success.

So, Dr. Hunt got at the root of the matter by getting at the root of the corn with his wonderful penetration method.

Dr. Hunt's New Corn Cure comes in simple plaster form. Six plasters in a box. Trim plaster size of corn and apply.

An amazing ingredient, discovered by Dr. Hunt penetrates the corn, eases it immediately, loosens it root and branch so that in two days the corn lifts right out.

No pain, no throbbing toe, no bulky uncomfortable pads to press on the sore spot, no discomfort whatever. Wear your regular shoes. Corn is cured while you walk about. Don't use caustic ingredients that eat off only the top of the corn and stimulate its further growth. Cure your corn the new way, the scientific way by using Dr. Hunt's New Corn Cure. Cures by penetration.

Ten cents brings you a box-full. Guaranteed or money back. Sold by all druggists and shoe dealers. Or, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

Large box containing 20 plasters, twenty-five cents.

## WE TAKE PLEASURE

in saying that we use the shaw shaper and moulder, we can not speak too highly of the Shaw; our experience has taught us that it is indispensable. We have had considerable experience with automatic shapers and moulders, but have found the Shaw shaper and moulder is the machine that gives every collar just the right finish and mould. The Shaw will edge, mould, shape and space so that a tie can slip easily, better than any other on the market up to this time. As we are continually on the alert for the best, for the benefit of our customers, if you want the most satisfactory work in the city, call The Larimer Laundry; Both phones: Citiz 521; Bell 188w.

# COMMITTEE MAKES REPORT ON COST OF "WHITE WAY"

**Claims Wrong Impression as to Cost Is Entertained By Some Who Objected to Proposed Assessment and Cost Not in Excess of That Borne By Property Along White Way in Other Cities.**

The committee appointed by the Dutch Treat Club, Thursday, to investigate the cost of the proposed "white way" in this city and report on the same, held a meeting Thursday night and went into the matter in detail, and after the investigation drew up a report of their findings, which is given in full as follows:

"A wrong impression seems to exist among property owners in regard to the assessment of property to pay for the cost of installing and operating the proposed white way. A general impression seems to prevail that the entire cost is to be assessed against abutting property.

"The standards and equipment for the white way will be installed and paid for by the lighting company with absolutely no expense to abut-

ting property. The assessment proposed is for part payment only of current consumed.

"For the benefit of those who do not understand the situation thoroughly, the following figures have been prepared:

"The cost of constructed white way is \$558 per block of 660 feet, or 84 1/2¢ per front foot. 59.14 per cent, approximately 50¢ per front foot, will be paid by assessment; 40.86 per cent, approximately 34 1/2¢ per front foot, will be paid by general taxation.

"The average customary assessment in other Ohio cities is approximately 50¢ per front foot and this is amount recommended to council by Mr. Jones, the engineer employed by them.

"The cost of assessment per month on 14 foot room is 58 1-3 cents; 16 foot room, 66 2-3 cents; 20 foot room 83 1-3 cents; 40 foot room \$1.66 2-3 cents.

"A number of property owners who signed the remonstrance against assessing the property along the proposed white way have already asked to have their names removed.

"DUTCH TREAT CLUB COM."  
"By Committee."

# WOULD HAVE GUIDE POSTS AT EVERY PIKE CROSSING

The Ohio Good Roads Federation is endeavoring to have guide-posts erected at every important cross roads in Ohio, particularly upon roads frequently used by tourists, and it is believed that within the next year or two such posts will be found throughout Fayette county, if not the state, as they are not only valuable to the tourists but to the public in general and to the various towns and cities concerned.

Following is the authority which provides for guide-posts and for their protection:

Section 153 of the Cass Highway Law (General Code 7196) provides: "The county highway superintendent shall erect and maintain at cross-roads, on inter-county and main

market roads, suitable sign-posts of a design to be prescribed and provided by the state highway commissioner, showing the names of the roads, and the direction and distance to the nearby villages and cities."

Section 246 of the Cass Highway Law (General Code 7469) provides: "Telegraph and telephone poles along the public highways may be used for the purpose of attaching thereto, or placing thereon sign-posts, guide posts, warning signs or other signs, when prescribed by the chief highway engineer or county highway superintendent."

Section 281 of the Cass Highway Law (General Code 13421-4) provides: "Whoever unlawfully alters, defaces, injures or destroys any

# GYM SCHEDULE FOR WINTER IS ANNOUNCED TODAY

Secretary Patton and Physical Director Beal have completed arrangements for the physical culture work of the coming season, and have just announced a schedule effective until further notice and beginning next week.

The schedule follows:

Juniors (19 to 14 years)—Mondays and Wednesdays, 3:45 p. m. and Saturdays at 9:00 a. m.

Intermediate (14 to 18 years)—Mondays, Wednesdays and Saturdays, 7:00 p. m.

Seniors (young men's class)—Mondays, Wednesdays and Fridays, 8:00 p. m.

Business Men Class "A" at 5:00 p. m. on Mondays, Wednesdays and Fridays. Class "B" on Tuesdays and Fridays at 7:00 p. m.

Swimming pool open to Juniors and intermediates after each class period, and open to seniors and business men at all other times.

The swimming pool will be opened Saturday after being closed two weeks while repairs were being made.

Physical Director Beal has arranged for physical examinations, and many local physicians have offered their services, gratis.

# TRACTION LOOMS UP IN EARNEST

Columbus, September 24.—Application has been made to the Public Utilities Commission by the Hillsboro, Cynthiana, Bainbridge & Chillicothe Traction Company for authority to issue \$500,000 capital stock and \$1,700,000 first mortgage, 5 per cent, ten-year bonds, the proceeds of which are to be used in constructing the proposed traction line from Hillsboro through Cynthiana and Bainbridge to Chillicothe, a distance of forty-two miles.

The estimated cost of constructing the road is given as \$1,699,398.15. The proposed bond issue is to be sold at not less than 85 and the stock at 80. The petition asserts that 80 per cent of the right of way already has been acquired. The application was heard by the commission and an order is expected within a few days.

# NEW MINISTER IS NOW IN FULL CHARGE

Rev. J. V. Stone and son Merrill arrived from Bremen Thursday afternoon, and Mrs. Stone will arrive Monday of next week.

Rev. Stone shipped his household goods Wednesday and they arrived Thursday and were transferred to the parsonage Friday morning.

Rev. Stone already has met a large number of citizens and made an equal number of friends. His first appearance as pastor of Grace church was at the Thursday night prayer services, where he was introduced by Rev. Ross and delivered a short address.

His first sermon will be delivered at the morning services Sunday.

# LEGION OF HONOR.

The French Order, Its Ranks and Its Limits of Membership.

The Legion of Honor is a French order for the recognition of military and civil merit, instituted by Napoleon while consul May 19, 1802, and inaugurated July 14, 1804. The decoration originally consisted of a star containing the portrait of Napoleon surrounded by a wreath of oak and laurel, with the legend, "Napoleon Empereur des Français;" on the reverse was the French eagle with a thunderbolt in his talons and the legend, "Honneur et Patrie."

The order has been remodeled several times, the last occasion being subsequent to the downfall of the second empire. There are now five ranks or classes—ordinary chevaliers or knights, officers, commanders, grand officers, grand crosses. The profuse granting of the decoration of the order latterly brought the institution into discredit, and the number of chevaliers is now restricted to 25,000, the officers to 4,000, the commanders to 1,000, the grand officers to 200 and the grand crosses to seventy.

The star now bears a figure emblematic of the republic, with the inscription, "Republique Française, 1870;" on the reverse two flags, with the inscription, "Honneur et Patrie."—Philadelphia Press.

# USE OF OLIVE OIL.

Reasons Why It Should Have More Prominence in Cooking.

Americans are not, generally speaking, liberal enough in the use of olive oil. It should occupy a more prominent place in cooking.

Any olive oil left in the pan after frying can be filtered through cheesecloth and kept in a cool place for future use. Olive oil can be used repeatedly. It should be hot before the article to be fried is placed in the pan.

Olive oil is capable of having the temperature raised to over 600 degrees before it burns. Butter burns at a little over 200, suet at about 300 and lard at 235. It will be seen that butter is a poor frying medium, as food must be kept at too low a temperature or it scorches, while with oil the high degree quickly coats the outside of the article with a crust that prevents the oil from penetrating.

Rub the preserving kettle with olive oil to prevent fruit from burning.

Use olive oil in recipes when possible where butter is called for. It is especially delicious in soft gingerbread, salad dressing and baked beans.—New York Sun.

# Feet of a Cat.

There is nothing especially striking about the feet of a cat except its ability always to land on them. Hold a young cat by its feet a short distance from the ground for a few seconds and then let go. The cat's back, being heavier than its feet, should strike the ground first. But it doesn't. Just as the cat is being let go it gives a quick upward thrust with its chest, and as the feet are freed they swing under it so it lands on them. In the case of the young cat that has never experienced this before it doesn't know that it is going to be dropped. If it were a long drop there would be time to think, but in the short drop the cat must act, and act immediately. In fact, it is really forehanded. The natural conclusion, then, is that this faculty in the cat is located in its feet. It is inherent in them.—Atlanta Constitution.

# Sharks' Eggs.

The eggs of fishes are usually small, soft and inconspicuous. The most remarkable point about them is the extraordinary number laid by the individual. A single cod lays as many as 9,000,000 eggs. Sharks lay eggs which are large in size, few as to numbers and are deposited singly instead of in masses. These eggs consist of a dark colored leathery envelope and are usually adorned with frills, horns or long twisted tendrils. These appendages serve the purpose of keeping the egg case supported among the branches of seaweeds, thus preserving the embryo from the damage it would sustain were the egg carried hither and thither by the waves.—Scientific American.

# Precept and Example.

"Colonel, that was an admirable speech you made at the club the other evening on the obligations of citizenship. I've been intending to tell you so ever since I heard it. We need more of that kind of talk nowadays. But what are you looking so gloomy about this morning, colonel? No bad news, I hope."

"Dash it all, yes! I've been drawn on a jury!"—Chicago Tribune.

# Mount Etna.

Etna, the "burning mountain," is the mightiest volcano in Europe. It is 10,800 feet high. If you wished to walk round its base you would have to walk ninety miles. It slopes steadily on all sides up to the highest crater, which is nearly a mile broad.

# Current Bushes.

In Porto Rico, where the air is moist and balmy, air plants grow on the telephone and telegraph wires. The insulation rots in places, and there the plants take root and thrive. These plants are called "current bushes" or "electric light plants."

# Same Voice.

"Before I married my wife I could listen to her voice for hours and hours." "And now?" "Now I have to."—Houston Post.

Honor is not won until some honorable deed be done.—Marlowe.

# "PLAY IT SAFE."

"Nobody out, Bill; play it safe."

If you have ever attended a ball game you have probably heard that remark and appreciate its meaning.

It's a good warning to remember when you are buying a new suit. Play it safe. Buy a suit that you know is value; one that positively will afford you the utmost satisfaction—It will not cost you any more than the other kind.

In clothes from \$10.00 to \$20.00 Clothcraft Clothes are the kind that protect you. Desirable from every point of view, they go a long way towards simplifying your future clothes problems.

The guarantee that goes with them is your protection—see that it is in the inside pocket of the coat.

# Katz's Corner

# The Clothcraft Store

"Sunny side of the street" will happen along next winter, just as though the shady side had had its day all summer.

Carranza's attitude recalls the old pun on sectarian disputes, "Orthodoxy is my doxy and heterodoxy yours."

Judging from their insipidity, some watermelons needed a real raincoat out there in the patch.

# Genius Recognized.

"It's a pity that Shakespeare is dead," remarked the old playgoer. "Yes," replied the modern manager. "What a moving picture scenario he could have written!"—Washington Star.

# Joined Right Off.

Lady (interviewing girl)—I may tell you that we are vegetarians. Girl (anxious to be hired)—That's my church, too, mum.—Boston Transcript.

# YOUNG MAN IS BOUND OVER ON A PERJURY CHARGE

Ray English, of this city, a witness in the case of Ada Hays against J. W. Hays, in probate court was Thursday afternoon bound over to the grand jury on a charge of perjury, and his bond was fixed at \$300. This was furnished, C. L. Baker becoming his bondsman.

The charge against young English grew out of testimony of a highly sensational character, given under oath in the above mentioned case, and in which his words reflected greatly against the plaintiff in the action. The name of a traveling patent medicine vender was mentioned

## PERSONAL PARAGRAPHS

Rev. Frederick E. Ross and daughter Miss Evelyn started Friday to motor through to their new home in Ironton. Mrs. Ross and son Malcolm join them Saturday.

Mr. Charles F. Bonham was called to Cincinnati Friday by the illness of his cousin, Mr. Scott Bonham.

Hon. H. L. Hadley continues to improve at the home of relatives in Arlington, Mass., and his attending physician expects him to be able to start for his home in this city next week.

Mr. Harry H. Stewart, who has been visiting his parents, Mr. and Mrs. G. W. Stewart, south of town, and his aunt, Miss Lissa Stewart, on E. Court street, left Friday morning for Kirksville, Mo., to enter the Osteopathic college.

Mrs. Spencer Calvert is rallying as well as possible from a serious operation, performed by Dr. Drury, of Columbus, at the Fayette Hospital and her many friends are confidently hoping for her continued improvement.

Mrs. E. A. Parrett attended the W. C. T. U. convention in Dayton, as delegate from the Cook's Station chapter. Mrs. W. H. Fulton accompanied her.

Mr. and Mrs. Frank Garringer, Miss Alta Garringer, Mr. and Mrs. Wilbur Bush attended the Fall Festival at Chillicothe this week.

Mr. and Mrs. John Brown of Bloomingburg and Mr. and Mrs. S. E. Simmons motored over to Chillicothe Thursday to attend the Fall Festival.

Mrs. S. E. Simmons has resumed her position in the Bybee millinery store for the fall season.

Mr. and Mrs. Jos. B. Gordon of Frankfort, O., are the guests of Mr. and Mrs. Will Hetteshheimer.

Mrs. Harry Chapman of Detroit, Mich., is the week end guest of Mr. and Mrs. Will Hetteshheimer.

Mr. and Mrs. Will Hetteshheimer and Mr. Wm. Turner and Miss Grace Paul motored to Chillicothe Thursday evening to attend the Fall Festival.

Miss Wilma Hammer, who is attending Bliss Business College,

in the testimony given by English. Soon after he had testified Mrs. Hays, thoroughly aroused by the charges made by the young man and which she brands false in every detail, filed an affidavit before Justice Craig in which she charged English with perjury.

The case came up for hearing Thursday and after several witnesses had been examined and testified to the falsity of the statements made by English, Judge Craig bound him over to the grand jury.

Should he be indicted and convicted, a term in the penitentiary will be the punishment meted out.

comes home this evening to spend Sunday with her mother, Mrs. W. H. Hammer.

Miss Lavon Turner of Jeffersonville spent the past two days with her brother Wm. Turner, on West Market street.

The Misses Grace and May Duffee have returned from a couple of days' stay in Columbus.

## MARY S. CHANGES HANDS THIS WEEK

Mary S. a very handsome and speedy little pacer, owned by Jack DeWitt of this city, was sold this week to Geo. W. Snider of Wellston, Ohio. She was sired by G. W. D. 2:08 1/4 and her first dam the brood mare sire Wilksview, who sired the dam of Kenneth Mack 2:17 1/4 and other performers of note.

Mary S attracted attention last fall when she pulled a top buggy a half mile over our local track in 1:15. Since she is absolutely untrained this performance distinguished her as a bright prospect in harness circles and her future will be watched with interest by the harness loving public.

## BOY SCOUTS WILL CAMP OUT TONIGHT

A half score of Boy Scouts will leave the Y. M. C. A. at five o'clock this evening for a two mile hike into the country where they will pitch their tents for the night, do their own cooking and rough it until Saturday morning, when they return to this city.

The boys will probably go to the Procter farm and pitch their tents in the open. The object of such "hikes" is to promote self-reliance, health and usefulness generally.

The Scouts will be in charge of Junior Secretary Elliott.

## V. M. DURLINGER AT DEATH'S DOOR

Mr. V. M. Durlinger, aged 75 years, father of Clerk of Courts E. W. Durlinger, is in a very critical condition at his home just east of Yatesville, and it is feared that he cannot survive the next 24 hours.

All day Mr. E. W. Durlinger has been at the bedside of his father, and at 2:30 o'clock no change for the better had been recorded.

## WILL BUILD SWITCH ON NORTH FAYETTE

Unless present plans are changed by the B. & O., that road will construct a siding along the main line near the northern terminus of North Fayette street, where the work of filling in the street has been under way for several years, and the fill is nearly completed.

It will be necessary for the road to make a considerable fill about the head of the street to make room for the Thornton coal yards, which, it is understood, will be located there.

## PAPER SUSPENDS

The daily paper which started in Wilmington in July quit publication this week. The editor and manager it is understood, closed the office one evening last week and left town leaving many unpaid bills both to printing machinery and paper houses and local creditors, also that his employees had not been paid their salaries for several weeks.—Hillsboro News-Herald.

## CLINTON COUNTY COMMISSIONERS HERE

The Clinton County Commissioners were in the city Friday afternoon to meet with the Fayette commissioners on the Jennie Shoop Joint County ditch.

The meeting was under way at press time.

The largest reptile is the man eating salt water crocodile of southern Asia and Australia. It measures thirty feet in length from end of nose to tip of tail.

## PENSION ROLL IS DECREASING RAPIDLY

Death decreased the government's Civil war pension roll nearly ten percent during the last fiscal year, according to the annual report of Commissioner of Pensions Saltzgar, made public September 22. A total of 396,376 Union veterans remained on the roll July 1, 32,255 less than a year ago. Payments to Civil war pensioners during the year totaled \$156,668,771, compared with \$172,417,546 in 1914.

Available records of the pensions office show the total death roll since the close of the war has been 1,816,995. In that period the federal government has paid to veterans, their widows and children \$4,614,643,267.

# BERLIN REPORTS GAINS IN EAST

## Hindenburg Penetrates Positions Near Dvinsk.

## FALL OF CITY INEVITABLE

Russian Forces Said to Be Evacuating the Town of Minsk—Balkan Situation Still a Riddle, Say British Experts—French Air Fleet in Fresh Raids—Cannonading Continues On the Western Front.

London, Sept. 24.—The German war office at Berlin announces that the new German offensive movement which has as its object the capture of the important Russian fortified city of Dvinsk, has made definite progress. The war office announced that Russian advanced positions west of the city had been penetrated, and that more than 2,000 prisoners and several machine guns had been captured. News of the capture of Dvinsk by the Germans is expected at Berlin within forty-eight hours, despite the tremendous obstacles which the lakes and swamps west and south of the city offer to the attacking troops. Great pine forests west of Dvinsk, in the region of Novo Alexandrovsk, have been set on fire by the Russians to compel a retirement of the Germans from their advanced positions, and for miles the countryside is a seething furnace.

In the section east of Vilna, the Germans have now pushed forward till they are forty-five miles southeast of that city, and they are attacking the Russian rear guard between Smorgonie and Molodetschno.

The greatest uncertainty still exists even in official circles in London as to the intention of King Ferdinand of Bulgaria and his advisers. The entente representatives at Sofia and other Balkan capitals are still busy trying to reconstruct the Balkan league and thus prevent Roumania, Bulgaria, Greece and Serbia from

fighting among themselves. As the Bulgarian government appears to have made up its mind, despite the opposition of some parties, it seems likely that these diplomatic efforts will have many difficulties to overcome.

An Athens dispatch received here states that Bulgaria has canceled its mobilization order.

The central powers have already commenced their attempt to make their way through Serbia, and one of the intervening neutral countries to the Aegean sea. With Russia more than holding her own against the Austro-Germans in Galicia and Volhynia, it is believed here that the Balkan powers would hesitate before going contrary to the wishes of their big neighbor and protector.

Prince Leopold of Bavaria has made a slight further advance, but Field Marshall Von Mackensen and his Austrian colleagues in the south are at a standstill, or are even being pushed back by the Russian commander, General Ivanoff.

### Raids by French Airmen.

The French air fleet again co-operated with the artillery in the bombardment of German railway stations and signaling point.

A French dirigible was in action in the Vosges, north of Wisenbach, dropping bombs on railway stations, which are a part of a German signaling system, while French aeroplanes compelled several German captive balloons to descend. Other activities of French aviators are noted from Offendbourg, Conflans and Voumiers, and at Langemarck and Middelkerke, in Belgium.

The artillery on both sides continues its activity along the western line with particularly heavy bombardments on the sectors of Sochez, Neuville and Arras. Infantry action, in which hand grenades and mines figured, is reported in the region of Quenneviers, south of the Avra, and between the Meuse and the Moselle.

Dispatches reaching Paris from Holland say that the German positions in Belgium have been heavily reinforced in the past few weeks and the fortifications of Lille restored and strengthened in anticipation of an offensive by the allies before the autumn rains set in.

## AUSTRIA WILL HEAR DUMBA

Vienna, Sept. 24.—Political circles are inclined to the opinion that the foreign office will await the arrival of Ambassador Dumba and hear his personal explanation of his activities in the United States and the interrupted letter before acting on Washington's request for his recall. In the meantime, it is expected that the Austrian government will detail Kajetan Mery von Kapos-Mere, the former Austrian ambassador to Italy, to act as ambassador pro tem to the United States. Dumba's dispatch requesting leave to return here has been received by the foreign office.

## DOWD DENIES EVERY CHARGE

Columbus, Sept. 24.—John W. Dowd, chairman of the Lucas county election board, testified in the election board removal case that the board never had succeeded in getting a list of residents of hotels and lodging houses. Hotelkeepers took the position the state couldn't compel them, without pay, to perform the labor of getting up the lists. Dowd, against whom the charges heard by Hildebrandt were filed and who was reinstated on the board by the court on the ground he had been removed without hearing, denied in detail every one of the charges.

## MELON RIPENS

No Friction Develops, Say the New York Bankers.

New York, Sept. 24.—American bankers and the Anglo-French commission declared emphatically that there has been neither hitch nor friction in the informal negotiations that have been held between them to establish a basis for a foreign loan which is intended to stabilize the exchange between the United States, England and France and other foreign countries. Instead, they said, the

matter has been progressing both smoothly and as rapidly as the men who have been engaged could expect.

It was agreed that very little remains to be done now, a very few details settled, before the transaction may move to a formal stage. No decisive action will be taken of course until after M. Bark, the Russian minister of finance, has had his interview with Chancellor of the Exchequer McKenna in London, but the general opinion appeared to be that Russia will not be a party signatory to the bonds. It is now known as the Anglo-French loan, one man pointed out, and very likely that will be the official title in the end. Of course it was admitted Russia might become a party.

One thing seems well settled, and that is both sides have agreed that in order to stabilize exchange and open a sure market for the surplus American crops and manufactures of normal export, an amount not less than \$500,000,000 will be required.

## ROCKEFELLER HOPES TO END COLORADO ROW

Denver, Colo., Sept. 24.—John D. Rockefeller, Jr., disclosed the plan by which he hopes permanently to end Colorado's industrial warfare. This plan is to build up an intimate relationship between the humblest workman in the mines and the officials of the Colorado Fuel and Iron company, including himself. Mackenzie King, social welfare expert of the Rockefeller foundation, who is accompanying Mr. Rockefeller, said: "There is to be no recognition of the United Mine Workers as a result of Mr. Rockefeller's visit to Colorado. Our new system of welfare work under which employees are allowed to name grievance committees to protest to mine superintendents against conditions they don't like is the Colorado Fuel and Iron company's answer to demands of the union for recognition."

### MACCABEE MEETING.

The next regular review of the Maccabees Tent 390 will be held September 30th at Tom DeWees' Studio, 7:30 p. m. A full attendance is desired.

## BULGARIA'S NEW ARMY DESCRIBED

Berlin, Sept. 24.—The German press gives some figures concerning the strength of the new Bulgarian armies. According to these figures, the Bulgarian army organization consist of ten infantry divisions, each having three brigades, twenty-four battalions, two squadrons, thirteen to fifteen batteries, besides mountain guns. In addition each division has cavalry fighting power. A division of three brigades, according to the German figures, is estimated to have 24,000 rifles, 24 machine guns, 200 howitzers, 72 field guns, four field howitzers and 8 to 12 mounted guns. This works out at 240,000 rifles, 240 machine guns, 8,000 cavalry, 720 field guns and 49 howitzers. Besides the mountain weapon there is a field reserve of 20,000, and in addition to these a sort of semi-trained militia, corresponding to the German land-sturm.

## CHICAGO TEACHERS SCORE ONE POINT

Chicago, Sept. 24.—Judge John M. O'Connor issued to the Chicago Teachers' Federation an injunction restraining the board of education from putting into effect its recently adopted rule whereby teachers were forbidden membership in any organization affiliated with organized labor. Announcement was immediately made by attorneys for the board that an appeal would be taken.

## PLEADS FOR WIDE ROADS

Cleveland, Sept. 24.—Resolutions recommending that all future road improvement be made wide enough to accommodate horse-drawn vehicles in passing automobiles were adopted at the closing session of the Carriage Builders' National association. Cincinnati was chosen as the convention city for 1916.

## ON BATTLEFIELDS

Chattanooga, Tenn., Sept. 24.—The Ohio general assembly on its annual reunion, arrived here on a special train of the Cincinnati Southern railroad. The solons are the guests of the Chamber of Commerce. Missionary Ridge and Lookout Mountain were visited today. The legislators will return to Cincinnati tonight.

## SECOND FAST BRINGS CURE

ASHLUDIA, O., Sept. 24.—Dr. H. G. Huffman, a Youngstown oculist, last year fasted for forty-seven days as an experiment in the interest of his health. He declared the result was all that he had hoped for. He has just concluded another fast—this time of thirty-one days—and announces he has completed his cure. He is soon to marry a Youngstown young woman.

## DRIVE RUSS FROM MINSK

Petrograd, Sept. 24.—Russian military authorities have ordered the evacuation of Minsk by its civilian population. The evacuation is now in progress. Minsk is at the junction of two railways, one running to Moscow. It is 475 miles southwest of Petrograd, 450 miles west of Moscow and 100 miles southeast of Vilna. The city has a population of over 100,000. German troops are now assailing Dvinsk by land, by water and by air.

## WANTS BALM, TRIES COURT

Dayton, O., Sept. 24.—Claiming that his discharge from the service of an undertaker followed his participation in the national guard movement at Yellow Springs, James H. Huffman, a member of Company G, Third Ohio volunteers, brought suit against his former employer, asking for a judgment of \$200.

THE GERMAN NOTE UNDER DISSECTION

Officials Favorably Impressed By Assurances.

INDEMNITY IN FRYE CASE

American Vessels Carrying Conditional Contraband Not to Be Attacked by Submarines—Proposals of Wilson Acceptable to Berlin. Right of Visit and Search to Be Heeded by German Commanders.

Washington, Sept. 24.—Assurances that German submarines will not under any circumstances sink American vessels carrying conditional contraband of war is contained in a note from the German government, made public at the state department, in which reply is made to the last note of the United States government in the discussion of the case of the

American schooner William P. Frye, sunk by a German cruiser last winter. Germany gave this assurance "in order to furnish to the American government evidence of its conciliatory attitude," while the question of interpreting the treaty of 1828 is submitted to arbitration. The American suggestion for the naming of experts to fix the indemnity for sinking the Frye is accepted.

As for absolute contraband, such as arms and ammunition, Germany states in its note that "it must reserve to itself the right to destroy vessels carrying absolute contraband wherever such destruction is permissible, according to the provisions of the declaration of London."

Just what the practical operation of the new assurances will be, officials were keenly interested to learn, for under the lists of contraband proclaimed by Germany in retaliation for acts of Great Britain nearly everything previously known as conditional contraband has now been made absolute.

It is not known as yet what attitude the United States will take in its next note, but it is understood that it may reiterate its insistence that the treaty of 1828, and not existing international law, makes American vessels immune from destruction irrespective of their cargoes. Germany, however, is anxious to submit to arbitration what the meaning of the treaty is on this point, and it is possible that if no further cases of damage occur during the pendency of the arbitration proceedings, the American government will be disposed to await the decision of the arbitral tribunal.

One thing which attracted attention in connection with the German note was the evident necessity of submarine commanders under their new orders to exercise the right of visit and search with respect to all American vessels to determine the nature of their cargoes.

The fact that Germany referred to its desire to demonstrate "its conciliatory attitude" toward the United States was regarded by many officials as evidence that the Berlin foreign office is disposed to avail itself of every opportunity to remove causes that have led to the strained relations between the two governments.

MAKE SEARCH TO FIND REAL CAUSE

City Authorities Probing the Subway Accident.

WITNESSES ARE EXAMINED

Italian Who Directed the Explosions Appears Before District Attorney and Declares the Usual Precaution Was Taken—Coroner About to Begin Inquiry Into the Affair—No Additional Bodies Found.

New York, Sept. 24.—Official investigations of the Seventh avenue subway disaster by the several interested city departments have not as yet yielded definite results as to the cause and responsibility for the accident.

August Mezzanotte, the blaster who directed the explosions that are generally believed to have caused the collapse of the wooden pavement, and who disappeared immediately after the accident, appeared at the district attorney's office, accompanied by counsel.

Mezzanotte described how the fuses were prepared for dynamite blasting. The first blast, set off at 7:50 a. m., he said, was a success. Before setting off the second blast, Mezzanotte said, he took the usual precaution, including the sending out of flagmen to stop traffic, and when this was done he gave the signal that the blast be fired. "In three or four seconds," Mezzanotte stated, "the deck (wooden pavement) began to go. It started where the blast went off and rolled away like a wave. The street then sank in," he added, "but no debris was blown in the air."

The scene paralyzed his senses, Mezzanotte said. He thought scores had been killed when the streetcar fell into the excavation. When he recovered he ran from the place.

District Attorney Perkins was impressed with the sincerity of Mezzanotte's statement and did not order him placed under arrest. He will appear whenever he is wanted by the authorities, he said. Coroner Feinberg announced that the inquest will take place tomorrow.

The work of clearing up the wrecked section of the subway is proceeding rapidly. No additional bodies were found. Reports from the hospitals are that most of the injured would recover. Only a few cases, it was said, are still in a serious state.

Miss Eugenie Besserer Arrived in New York City With Just 25 Cents—Now a Star in Pictures

Miss Eugenie Besserer, the French emotional actress, had a long experience in the spoken drama before she became a star in motion pictures. She has appeared in the support of Nance O'Neill, Wilton Lackaye and Frank Keenan. Miss Besserer is perhaps the most versatile of motion picture stars, and her appearance in the leading role in Selig Diamond Specials "The Smoldering" and "The Melody of Doom," created world-wide attention. In the following article Miss Besserer tells over her own signature her experiences as an actress.—Editorial Note.

By EUGENIE BESSERER.

You may talk all you please about the "dignity of the stage," but do not forget the "dignity of the motion pictures." Not so long ago it was considered undignified to leave the spoken stage for the silent stage. Those having the temerity to leave the stage for the movies were cause for commiseration. "Miss Jenkins, I see, has gone to the movies, well, well!" Now the shoe is on the other foot. The exclamation may soon be heard: "Miss Jenkins, the well-known movie actress, has returned to the stage, well, well!" To paraphrase an old song: "It shows what a difference just a few years make!"

I was born in Paris, but was taken by my parents to Ottawa, Canada, early in life and I spent my girlhood in Canada. Unfortunately I was left an orphan and later, at the age of 12 years, I escaped from my guardians and found myself an absolute stranger. In the great city of New York, in the Grand Central Station, with 25 cents in Canadian money in my pocket. Through the kindly aid of a street car conductor and a directory, I succeeded in locating a former Governess whose name I happily remembered. This kindly lady was delighted to see me and with her aid, I discovered the residence of an uncle, with whom I took up my abode.

"I continued my studies and became quite proficient in athletics. I took lessons in fencing and became rather proficient. I shall always remember that I held my own with no less an accomplished swordsman than the late Alexander Salvini.

I had always an ambition to go on the stage, and my first theatrical experience was with McKee Rankin.

Cane Granulated Sugar \$1 42 per 25 pound bag.

clutches and springing to the circular staircase. Then to top it all off, the unfortunate individual had to plunge headfirst down the staircase to his supposed death, and he certainly had earned his money after the day's work was concluded.

I think I have put my very best art into the character of "Aunt Ray Innes" in the Selig Red Seal Play, "The Circular Staircase." I have always been a great admirer of Mrs. Rinehart's writings, and there is every opportunity to put forth one's best endeavors in this story.

A majority of the artists say that motion picture acting is the hardest kind of work. I never deemed it so. I try to forget myself in my part, throw my entire personality into the roles I create and I love the work.

However, it is an art that cannot be acquired by any "school" other than the school of long experience. Actors of years of experience on the stage are the more successful because they have a foundation upon which to work.

WILL UNCOVER AVERAGE WAGE OF OHIO WORKMEN

By Associated Press.

Columbus, September 24.—What are the average yearly earnings in Ohio of the average brick mason, coal miner, railway brakeman, street car employe, carpenter, mechanic, attorney, physician, insurance man or any other laboring or professional man?

The state industrial commission, it became known today, expects to gather figures to answer that question. Through the medium of labor

# GREEKS CALLED TO THE COLORS

Great Enthusiasm Follows Call For 20 Classes of Greeks to Mobilize.

## MOBILIZATION IS REPLY TO BULGARIA'S RECENT MOVES

Bulgars Work Feverishly Upon Black Sea Fortifications, Fearing Russian Invasion if She Joins Central Nations—Russians Recapture Fort Lost to Austrians and Drive Foe Back—Holding Germans in Check at Nearly All Points.

By Associated Press. Athens, Greece, September 24.—A decree for general mobilization of 20 classes of Greek soldiers, signed last night by King Constantine, was promulgated today. The decision of the king has aroused the greatest enthusiasm.

Issuance of the decree came quickly after the king had granted an audience to Premier Venizelos, who informed the king that mobilization was the only possible reply to Bulgaria's move.

The sovereign agreed, stipulating that it should be regarded as a defensive measure.

The classes of 1892 to 1911, now called to the colors, are in addition to the four classes already under arms.

Diplomatic circles here have been informed that Bulgarian warships on the Black Sea have sought shelter. Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports.

The valuables of the branches of the national bank have been removed to Sofia.

The belief has been expressed in Bulgaria that if that country arrays itself on the side of the Teutonic allies, Russia would attempt an invasion through the port of Varna, 30 hours' sail from Odessa.

London, September 24.—Military activities on the eastern front are once more assuming the familiar phase of a slow German advance, following the recent impetuous rush of the invaders.

The German plan of dividing the Russian armies north and south of the Pripiet has been a strategic success in a way, but the immediate effect of the severance was to throw an increased burden on the Austrians, who seem unable to check the Russian drive.

Unofficial dispatches from Petrograd state that the latest Russian victory, northwest of Dubno, is of more importance than was revealed by the official communication from Petrograd, involving the recapture of Lutsk, northwest of Grodno.

Relinquishing this fortress, the Austrians are said to have retired across the Styx.

All the way from the Baltic port of Riga to the Pripiet marshes the Russians are holding their line stubbornly.

It is generally believed that the Germans have determined to capture Riga before the onset of winter.

Paris, September 24.—A message from Sofia makes the definite announcement that mobilization of Bulgarian military forces, reported to have been postponed, has been decided upon.

Berlin, September 24.—Field Marshal von Hindenburg has made further progress in his efforts to

capture the Russian fortified city of Dvinsk.

The taking by storm of an additional Russian position defending the city northeast of Smelina is officially reported today.

# MORE THAN 6 BILLIONS

By Associated Press.

London, September 24.—Without taking into consideration the expected increase from further returns, the figures on the subscription to the third German war loan show that the total subscription to the war loans of the empire, since the beginning of the war, have reached the huge sum of \$6,272,500,000.

## KAISER AND SIXTH SON

Ruler and Prince Joachim Reported Slightly Hurt in Auto Wreck.

Photo by American Press Association.

# BIG STEEL PLANT CHANGES HANDS

By Associated Press.

Philadelphia, September 24.—The Midvale Steel Company, one of the largest so-called independent concerns in the country, employing 5,500 men, was sold today for \$19,000,000 cash to purchasers whose identity was not disclosed.

# THREE DIE IN WRECK

By Associated Press.

Plattsburgh, Nebraska, September 24.—Three trainmen were killed and four others seriously injured today, five miles north of here on the Missouri Pacific Railroad, when a southbound passenger train, from Omaha to Kansas City, met a northbound freight, head-on.

All the passengers escaped with minor scratches. Misunderstanding of orders is believed to have caused the accident, which occurred on a sharp curve.

# SOLONS ON LOOKOUT

By Associated Press.

Chattanooga, Tenn., September 24.—The general assembly of Ohio held a brief session on the summit of Lookout Mountain today, with a majority of both houses present.

Presiding Officer Arnold of the Senate used a pile of cannon balls for a chair, while Speaker Conover's rostrum was a cannon. A roll call showed 82 representatives and 25 senators present.

A straw ballot taken on the train showed that 59 members of the assembly are opposed to the McDermott liquor license law, and 37 in favor of it.

A similar vote on the Sprague gerrymander bill resulted in 51 affirmative and 41 negative votes.

# SEEK RELEASE OF GOODS WORTH \$167,000,000

By Associated Press.

Washington, September 24.—The British government is preparing to receive applications unofficially, through the foreign trade advisors of the State Department, for release of \$167,000,000 worth of American owned goods, of German and Austrian origin, held at Rotterdam by the British order in council.

At the request of the trade advisors, the British embassy here will submit a written statement of the condition under which goods will be released.

Negotiations have been in progress for months unofficially, seeking release of the vast quantity of merchandise consigned to American importers and already either paid for or contracted for under agreements which make the American buyers liable for payment.

# 14-YEAR-OLD BOY LYNCHED

By Associated Press.

Jackson, Ga., September 24.—Joe Pearsons, a 14-year-old negro boy, was hanged here today for assaulting an eight year old white girl.

To the 50 persons around the scaffold, he admitted his guilt, and stoically announced he was ready to die.

# ESTIMATES 450,000 MURDERED

By Associated Press.

New York, September 24.—Dr. Simbad Gabriel, president of Armenian General Progressive Association in the United States has received from Nubar Pasha, diplomatic representative in Paris, of the head of the Armenian church, advices in regard to the massacres of Armenians in Turkey, in which it is stated that "Christian martyrdom has at no time assumed such colossal proportions."

The letters contain an appeal to the United States "to intercede and stop the persecutions."

Dr. Gabriel estimated that 450,000 Armenians had been put to death and 600,000 rendered homeless or exiled, out of a population of 1,500,000.

"What has occurred in a few months in Cilicia and Armenia," wrote Nubar Pasha, "is unbelievable. The great massacres of Abdul Hamid seem insignificant compared to the recent atrocities, which are without precedent in the history of our nation's martyrology."

# TWO VESSELS TORPEDOED

By Associated Press.

Washington, September 24.—The British horse ship Anglo-Columbian was torpedoed by a submarine off Fastnet today, Consul Frost cabled.

London, September 24.—The British Harrison liner Chancellor, 4500 tons, engaged in trans-Atlantic trade has been sunk.

Part of her crew was saved and search is being made for the others. It is reported there were passengers.

# THREE BILLION SUBSCRIBED

By Associated Press.

London, September 24.—The total subscriptions to the new German war loan is given by press dispatches from Amsterdam at \$3,007,500,000.

# GEORGE B. MCLELLAN

Former Mayor of New York Back From European War Zone.

Photo by American Press Association.

# INSURANCE FRAUDS ARE UNCOVERED

By Associated Press.

Cincinnati, September 24.—Harold Switzer, aged 19, was arrested here today and made a statement, the police say, concerning his connection with the case of Robert C. Strang, who it is claimed by the police is under arrest in New Orleans after having supposedly been drowned here and after his wife is alleged to have collected considerable insurance from policies made out on Strang's life.

Mrs. Strang was arrested in Youngstown and brought to Columbus today.

Switzer told the police that the entire proceedings were "framed up." He said that he took Strang on a motor boat ride; that he put him off near Anderson's Ferry where he boarded a train for the south; that he (Switzer) then brought the boat into harbor and reported that Strang had been drowned.

He said he received \$200 for his part. Switzer stated that the reason Strang wanted it to appear as though he had been drowned, was that he was losing money on a contract to build a Moose temple here and could not complete it.

# GEN. MADERO IS ARRESTED

By Associated Press.

San Antonio, Texas, September 24.—General Raoul Madero, of Villa's staff, has been arrested by American soldiers near Marfa, Texas, according to a report to Major General Funston from Marfa today.

With Madero were eight companions, all supposed to be Villa officers, who were also arrested.

They were taken into custody when they crossed to the American side of the Rio Grande.

# ARCHIBALD TO ESCAPE

By Associated Press.

Washington, September 24.—James F. J. Archibald probably will not be prosecuted by the Department of Justice.

Some officials here say there is no statute covering his case.

# U. S. TROOPER IS KILLED

By Associated Press.

Brownsville, Texas, September 24.—Mexicans today attacked a detachment of United States soldiers at Progreso, 40 miles west of here, and killed Private Stubblefield, of Troop B, 12th United States Cavalry, according to advices received here.

Two other soldiers were wounded. The Mexicans approached from the direction of the Rio Grande, one mile distant from the hamlet. The American detachment which has been on duty at Progreso since its recent fight, when a soldier was killed and an officer wounded, was camped in front of a house.

The Mexicans opened fire and Private Stubblefield fell at the first volley. The soldiers returned the fire, moving rapidly toward the Mexicans and firing every time one showed himself. The Mexicans retreated into the brush.

# BANKERS ACCEPT

By Associated Press.

New York, September 24.—Members of the Anglo-French commission, it was reported today, have accepted the principal suggestions of American bankers on the proposed credit loan.

These suggestions are: The amount to be \$500,000,000, or possibly a little more; the price to investors to be slightly below par; notes to run for five years, convertible then into ten or fifteen year Anglo-French bonds bearing four and one half per cent interest; Russia probably to be eliminated as a participant.

# MARRIAGE LICENSES

Wm. Bruce, 21, farmer of Highland county, and Ruth Ethel Simmons, 24, of Green township,

# HOW GERMANS STAMP OUT TYPHUS IN RUSSIA.

Photo by American Press Association.

Each case of the dread disease is carefully handled by the German invaders. Here is a house in Poland where the inmates were stricken. "Typhus" is marked on the building, and a soldier stands guard outside.

# GREAT SENSATION IS SPRUNG IN GREENFIELD

Courtesy The Greenfield Republican.

The above cartoon, by Greenfield's talented artist, Mr. Gadbury, appeared in Friday's issue of the Greenfield Republican and graphically depicts the present status of affairs in Greenfield, where consternation reigns over the issuance of more than 100 affidavits against 38 persons, charging violation of the liquor license laws.

The avalanche of affidavits is a result of the work of a Court of Inquiry instituted by the State Liquor License Commission and which was attracted to Greenfield by the efforts of Mr. Oscar White, of the Greenfield Republican, who is well known to many Washington and Fayette county citizens, and whose work in turning the spot light upon Green-

field's lawless element has been watched with a great deal of interest by local citizens.

As a result of the work of the two men forming the court of inquiry, wholesale arrests are now being made, and there has been a general exodus of some of the chief offenders, several of whom are said to have purchased tickets for this city.

So thorough was the work of the court of inquiry that eighteen affidavits were issued against one offender, and it is expected that when the "big drive" is ended, Greenfield will be minus several of her most notorious citizens and the Cincinnati workhouse will hold the bulk of them.

The cases will be tried before

Mayor Durant, of Greenfield, and the fine upon each count is expected to be \$200 and the costs, and the Aiken tax will apply whenever possible. Copies of all affidavits will be placed in the hands of Federal officials and the violators must answer to the revenue authorities.

The investigators stated that other lawlessness, over which their department has no control, abounds in Greenfield, and this will probably be given attention by other authorities.

When the fight was launched it is understood the Mayor stated that if crime was pointed out he would do his official duty in assessing punishment, and the eyes of all are now centered upon him as to what disposition he will make of the 38 cases to be brought before him.

It will serve. There is a mark well known to the world by now which they have left for a visible seal to their doom.

When they first set the place alight there were some hundreds of the wounded in the cathedral. The French saved as many as they could, but some had to be left. Among them was a major, who lay with his back against a pillar. It has been ordained that signs of his torment should remain. An outline of both legs and half of his body is printed in greasy black upon the stones. There are very many people who hope and pray that it will be respected, at least, by our children's children.

And in the meantime Rheims goes

## SHELL BATTERED RHEIMS AS DESCRIBED BY KIPLING

RUDYARD KIPLING.

NOTE—This is the second installment of the Second Series of articles from the pen of Kipling. Others will be presented on this page in rapid succession.

Anywhere you please you shall find the same observation post, table, map, observer and telephonist. It is always hidden, the guns are always ready, and the same smeared wisp of trenches is smoking and flaring from Switzerland to the sea. The handling of the war varies with the nature of the country, but the tools are unaltered. One looks upon them at last with the same weariness of wonder that the eye receives from an endless repetition of Egyptian hieroglyphics.

### Symbols of the Conflict.

A long profile with a lump to one side means a field gun and its attendant ammunition case. A circle and a slot stand for an observation post. The trench is a bent line studded with vertical plumes of explosion. The great guns of position, coming and going on their motors, repeat themselves as scarabs, and man himself is a small blue smudge no larger than a foresight, crawling and creeping or watching and running among all those fer-

the symbols.

But there is no hieroglyphic for Rheims, no blunting of the mind at the abominations committed on the cathedral there. The thing peers upward, maimed and blinded from out of the utter wreckage of the archbishop's palace on the one side and a dust heap of tumbled houses on the other. They shelled, as they still shell it, with high explosives and with incendiary bombs, so that the statues and stonework still in their places are burned the color of raw flesh. The gargoyles are smashed, statues, crockets and spires tumbled, walls split and torn, windows thrust out and all tracery obliterated. Wherever one looks at the tortured pile there is mutilation and defilement, and yet it had never more of a soul than it has today.

Inside, "Cover yourselves, gentlemen," said the sacristan; "this place is no longer consecrated." Everything is swept clear or burned out from end to end except two candlesticks in front of the niche where Joan of Arc's image used to stand. There is a French flag there now. The last time I saw Rheims cathedral it was in a spring twilight, when the great west window glowed and the only lights within were those of some candles which a penitent Englishman had lit in Joan of Arc's honor on those same candlesticks. The high altar was covered with carpets, the pavement and tiles were cracked and jarred out by the rubbish that had fallen from above, the floor was gritty with dust of glass and powdered stone and little twists of leading from windows and iron fragments. Two great doors had been blown inward by the blast of a shell in the archbishop's garden until they had been bent grotesquely to the curve of a cask. There they had jammed the windows.

### Rheims but One Altar.

But the record has been made and will be kept by better hands than mine. It will last through the generations in which the Teuton is cut off from fellowship with mankind and through all the long, still years when the war of the body is at an end and the real war begins. Rheims is but one of the altars which the heathens have made on which to commemorate their own death throughout the world.

about what business it may have with that iron nerve and endurance and faith which are the new inheritances of France. There is agony enough when the big shells come in. There are pain and terror among the people and always fresh desecration to watch and suffer. The old men and the women and children drink of that cup daily, and the bitterness does not enter into their souls. Mere words of admiration are impertinent. But the exquisite quality of French civilization has been a marvel to me throughout. They say themselves when they talk:

"We did not know what the nation was. Frankly, we did not expect it ourselves, but the thing came, and you see we go on."

Or as a woman puts it more logically:

"What else can we do? Remember, we knew the boche in '70, when you did not. We know what he has done in the last year. This is not war. It is against wild beasts that we fight. There is no arrangement possible with wild beasts."

This is one vital point which we in England must realize. We are dealing with animals who have scientifically and philosophically removed themselves inconceivably outside of civilization. When you have heard a few tales, only a few tales, of their doings you begin to understand a little more. When you have looked long enough into the faces of the women you are inclined to think that the women will have a large say in the final terms. They have earned it a thousand times

## FIVE WOMEN IN ACCIDENT

Cambridge, O., Sept. 24.—Miss Besie Landus, twenty-five, milliner of Byesville, is said to be dying and five other occupants of the automobile which she was driving were injured when the machine overturned on a steep hill. Miss Landus, Mrs. W. V. Hildebrandt, her daughter Anna, and Mrs. A. C. Andrews and five-year-old daughter were pinned under the machine. All five in Byesville.

## SERIOUS FIRE

Akron, O., Sept. 24.—Half of the northwest section of Doylestown, twelve miles from Akron, was swept by flames which wiped out Pettit Brothers' mill, the Presbyterian church and the residence of Mrs. Charles Drilian, and partly destroyed the Lutheran church, Albert Frath's livery barn and three other residences. The loss is placed at from \$75,000 to \$100,000.

## BACK TO N. Y.

Cleveland, Sept. 24.—After two months' stay at his home at Forest Hill, John D. Rockefeller left Cleveland to return to his New York estate at Pocantico Hills. Mr. Rockefeller appeared in good health.

TELEPHONES—Home No. 137. Bell, Main No. 170.

Fall Trade Is Opening

Trade is a sensitive thing and is stimulated or depressed by happenings of comparatively little consequence. In fact and logically too, trade is as sensitive as the people who trade. Nothing is more marked and more direct in its effect upon the temperament of the average human being than changes in the weather. Consequently weather conditions have a marked influence on trade in all lines.

The dry weather of the past two weeks followed by a touch of Jack Frost's breath Tuesday and Wednesday nights, has encouraged the people and sent the blood coursing through their veins more rapidly. They feel better physically and are more at ease regarding the future. That means that they are thinking of buying and are buying.

In woollens and dress goods and fall stocks in all other lines the increase in trade is already marked.

Weather conditions now are ideal to encourage people as to crop prospects and stimulate them to action.

The effect upon individuals and trade therefore has resulted in a marked improvement.

Individuals are busy buying and merchants are busy catering to their demands and desires.

Traction Companies Jolted

The opinion given by Attorney General Turner to the highway department of the state is calculated to create consternation among the owners of interurban traction properties in Ohio and, judging by the opposition which greeted the announcement of the opinion, it has fully met all expectations in that regard.

The attorney general holds that while the County Commissioners had a right to grant franchises to the traction companies under which they located tracks and now occupy the space, the County Commissioners were without the slightest power to barter away the larger right of the public to a free use of the highway in such manner that conditions made it necessary to use and occupy the highway. No franchise rights that were in the power of the County Commissioners to award and bestow impinged in the slightest the sovereign power of the state in its protection of the larger rights of the public to the use of the highways, to exercise its police power over the highways and state the conditions at all times that must be observed to best serve the public to whom the highway was dedicated and for whose accommodation it is to be maintained. Nor was there ever, at any time, even the color of law to make possible the expenditure of the funds of the state highway department for the relocation of the tracks of a private corporation that claimed to have rights on the highway.

The opinion will effect all interurban roads with tracks on the state highways whenever the question of paving and improving the road comes up, and in effect means that where a highway is improved the interurban companies whose railway tracks run along the highway may be forced to relocate their tracks in the center of the pike, pave between the rails and for a foot out on the outside of the rails. The cost to the traction companies, if the ruling is enforced, will be tremendous, but the benefit in a reduction of cost to the users of the highway and the public generally will also be marked.

While the matter of cost is worthy of consideration, both by the companies and by the public generally, there is the added danger to the users of the highway which should not be overlooked.

To locate a traction railway through the center of a public road will add materially to the danger of accidents. The traveling public will be forced much closer to the rapidly moving cars and the danger of collision between traction cars and users of the highway multiplied many times.

It is doubtful if the assistance to be forced from the owners of traction companies to paying the cost of highway paving will compensate for the increased danger to traffic.

Federal Government Should Control Quarantine at Port of New York

By WILLIAM HOWARD TAFT, Former President of the United States

THE public health service conducts fifty quarantine stations in this country at all large ports excepting New York, now that the transfer of the Boston station has been accomplished. IT HAS AGENTS IN EVERY IMPORTANT AND DANGEROUS PORT OF THE WORLD, WHO CONSTANTLY REPORT ON HEALTH CONDITIONS AND ISSUE WARNINGS.

The quarantine at New York, however, is intimately our affair. Its conduct is now practically of national concern. It grows out of and is part of foreign and interstate commerce.

This is not simply a New York matter. New York is the biggest city we have, and the quarantine station is one through which the greatest number of people pass. But they do not stay in New York. They go on to the rest of the country, and therefore the whole country is interested in this service should be conducted by a government which the country controls.

We are not criticising New York's health department. It is an admirable department. The health law of New York is the best health law in the United States.

BUT UNDER THE CONDITIONS WITH THE SYSTEM WHAT IT IS. IT CANNOT BE SO GOOD, IT CANNOT BE SO EFFECTIVE AS IT COULD IF PART OF THE NATIONAL SYSTEM.

Poetry For Today

PEACE INVIOABLE.

Through a valley of blackest night,  
With no single star to guide me,  
I could struggle back to the light,  
If my love but stood beside me;  
And my love—in storm or in stress,  
Fortunes frowning or beguiling,  
Though Fate punish, or caress,  
He shall look—and find me smiling.

Pray what can sadden the heart  
When one lives, and loves and is young?  
Shall the sudden teardrops start  
At the stab of a venomous tongue?  
Shall one sigh for the lack of wealth  
When the heart holds hidden treasure,  
When the blood in one's veins spells  
"Health?"  
And the feet trip Love's own measure?

Nay, life shall flow like a song,  
With a sweet refrain to charm us,  
No grief shall prevail for long;  
Nor evil have power to harm us.  
Who cares for the winter's cold,  
Or the heat of summer weather?  
'Tis long while yet to grow old—  
And we'll travel the road together!

—New York Times.

Bits of Byplay

VIOLENT DEATH

Springfield, O., Sept. 24.—Lawrence Bosley, superintendent of the fire alarm system, fell forty feet from a telegraph pole and suffered internal injuries, which caused his death.

First Talking Machine.

The recording of vibrations of a membrane was first accomplished by Leon Scott in 1857, by the invention of what he called a "phonograph." This is regarded as the precursor of the modern phonograph. The actual reproduction of sound was first achieved by Thomas Alva Edison in 1876 and first patented by him in 1877, the patent being dated in January of that year. There had been, of course, several experiments and improvements between. The first method of recording vibrations of a tuning fork on the surface of a drum was discovered by Thomas Young in 1807. Alexander Graham Bell and S. Tainter patented the graphophone in 1885. Emile Berliner patented the gramophone in 1887.

Pay hotel bills with them; buy railroad and other tickets; make purchases at the best shops. They are much safer to carry than money. Your counter-signature identifies you. Issued by

The Washington Savings Bank

DONAHEY REFUSES THE COIN

Columbus, Sept. 24.—Under a ruling by Attorney General Turner, State Auditor Donahey must issue pay warrants on the state treasury for some \$300 worth of groceries and flowers and for dance music at the Ohio building at the Panama-Pacific exposition. Donahey had refused to pay the bills on the ground that the grocery bills contained item for liquor and high priced delicacies. The official explanation of Newton M. Miller, Ohio's managing commissioner at the fair, was that the liquor had been bought for "medicinal purposes," and that the balance of the purchases were used in the Ohio building.

Mr. Donahey still refuses to pay the entertainment bills. Following Mr. Turner's ruling he wrote Commissioner Miller as follows: "The law requires that the Ohio building be used for exhibit purposes and not as a hotel, and no bills of the character of those already rejected will be approved in the future by the state auditor."

STATE FAIR LOST MONEY

Columbus, Sept. 24.—The board of agriculture may experience difficulty in obtaining \$20,000 from the emergency board to make up a deficiency due to the State fair. At least one member of the emergency board, State Auditor Donahey, will oppose granting the appropriation. The total fair expenses was \$110,000. Receipts were about \$82,000.

ATTENTION.

The John M. Bell Post No. 119, Department of Ohio G. A. R. will meet in regular session on Saturday the 25th of September, 1915, at 2 o'clock. All members are requested to attend.

NEW CORN CURE PRINCIPLE

Dr. Hunt's Wonderful Penetration Method. PRICE ONLY 10c.

It remained for Dr. Hunt of Sidney, Ohio, to solve the corn problem. Folks had tried other remedies with only partial success. So, Dr. Hunt got at the root of the matter by getting at the root of the corn with his wonderful penetration method.

Dr. Hunt's New Corn Cure comes in simple plaster form. Six plasters in a box. Trim plaster size of corn and apply.

An amazing ingredient, discovered by Dr. Hunt penetrates the corn, eases it immediately, loosens it root and branch so that in two days the corn lifts right out.

No pain, no throbbing toe, no bulky uncomfortable pads to press on the sore spot, no discomfort whatever. Wear your regular shoes. Corn is cured while you walk about. Don't use caustic ingredients that eat off only the top of the corn and stimulate its further growth. Cure your corn the new way, the scientific way by using Dr. Hunt's New Corn Cure. Cures by penetration.

Ten cents brings you a box-full. Guaranteed or money back. Sold by all druggists and shoe dealers. Or, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

Large box containing 20 plasters, twenty-five cents.

# COMMITTEE MAKES REPORT ON COST OF "WHITE WAY"

**Claims Wrong Impression as to Cost Is Entertained By Some Who Objected to Proposed Assessment and Cost Not in Excess of That Borne By Property Along White Way in Other Cities.**

The committee appointed by the Dutch Treat Club, Thursday, to investigate the cost of the proposed "white way" in this city and report on the same, held a meeting Thursday night and went into the matter in detail, and after the investigation drew up a report of their findings, which is given in full as follows:

"A wrong impression seems to exist among property owners in regard to the assessment of property to pay for the cost of installing and operating the proposed white way. A general impression seems to prevail that the entire cost is to be assessed against abutting property.

"The standards and equipment for the white way will be installed and paid for by the lighting company with absolutely no expense to abut-

ting property. The assessment proposed is for part payment only of current consumed.

"For the benefit of those who do not understand the situation thoroughly, the following figures have been prepared:

"The cost of constructed white way is \$558 per block of 660 feet, or 84 1/2¢ per front foot. 59.14 per cent, approximately 50¢ per front foot, will be paid by assessment; 40.86 per cent, approximately 34 1/2¢ per front foot, will be paid by general taxation.

"The average customary assessment in other Ohio cities is approximately 50¢ per front foot and this is amount recommended to council by Mr. Jones, the engineer employed by them.

"The cost of assessment per month on 14 foot room is 58 1-3 cents; 16 foot room, 66 2-3 cents; 20 foot room 83 1-3 cents; 40 foot room \$1.66 2-3 cents.

"A number of property owners who signed the remonstrance against assessing the property along the proposed white way have already asked to have their names removed.

"DUTCH TREAT CLUB COM."  
"By Committee."

# WOULD HAVE GUIDE POSTS AT EVERY PIKE CROSSING

The Ohio Good Roads Federation is endeavoring to have guide-posts erected at every important cross roads in Ohio, particularly upon roads frequently used by tourists, and it is believed that within the next year or two such posts will be found throughout Fayette county, if not the state, as they are not only valuable to the tourists but to the public in general and to the various towns and cities concerned.

Following is the authority which provides for guide-posts and for their protection:

Section 153 of the Cass Highway Law (General Code 7196) provides: "The county highway superintendent shall erect and maintain at cross-roads, on inter-county and main

market roads, suitable sign-posts of a design to be prescribed and provided by the state highway commissioner, showing the names of the roads, and the direction and distance to the nearby villages and cities."

Section 246 of the Cass Highway Law (General Code 7469) provides: "Telegraph and telephone poles along the public highways may be used for the purpose of attaching thereto, or placing thereon sign-posts, guide posts, warning signs or other signs, when prescribed by the chief highway engineer or county highway superintendent."

Section 281 of the Cass Highway Law (General Code 13421-4) provides: "Whoever unlawfully alters, defaces, injures or destroys any

marker or monument placed along, upon or near a public highway, by the proper authorities, to mark the boundaries thereof, or for other purpose, shall be fined not more than fifty dollars, nor less than five dollars."

# GYM SCHEDULE FOR WINTER IS ANNOUNCED TODAY

Secretary Patton and Physical Director Beal have completed arrangements for the physical culture work of the coming season, and have just announced a schedule effective until further notice and beginning next week.

The schedule follows:  
Juniors (16 to 14 years)—Mondays and Wednesdays, 3:45 p. m. and Saturdays at 9:00 a. m.

Intermediate (14 to 18 years)—Mondays, Wednesdays and Saturdays, 7:00 p. m.

Seniors (young men's class)—Mondays, Wednesdays and Fridays, 8:00 p. m.

Business Men Class "A" at 5:00 p. m. on Mondays, Wednesdays and Fridays. Class "B" on Tuesdays and Fridays at 7:00 p. m.

Swimming pool open to Juniors and intermediates after each class period, and open to seniors and business men at all other times.

The swimming pool will be opened Saturday after being closed two weeks while repairs were being made.

Physical Director Beal has arranged for physical examinations, and many local physicians have offered their services, gratis.

# TRACTION LOOMS UP IN EARNEST

Columbus, September 24.—Application has been made to the Public Utilities Commission by the Hillsboro, Cynthiana, Bainbridge & Chillicothe Traction Company for authority to issue \$500,000 capital stock and \$1,700,000 first mortgage, 5 per cent, ten-year bonds, the proceeds of which are to be used in constructing the proposed traction line from Hillsboro through Cynthiana and Bainbridge to Chillicothe, a distance of forty-two miles.

The estimated cost of constructing the road is given as \$1,699,398.15. The proposed bond issue is to be sold at not less than 85 and the stock at 80. The petition asserts that 80 per cent of the right of way already has been acquired. The application was heard by the commission and an order is expected within a few days.

# NEW MINISTER IS NOW IN FULL CHARGE

Rev. J. V. Stone and son Merrill arrived from Bremen Thursday afternoon, and Mrs. Stone will arrive Monday of next week.

Rev. Stone shipped his household goods Wednesday and they arrived Thursday and were transferred to the parsonage Friday morning.

Rev. Stone already has met a large number of citizens and made an equal number of friends. His first appearance as pastor of Grace church was at the Thursday night prayer services, where he was introduced by Rev. Ross and delivered a short address.

His first sermon will be delivered at the morning services Sunday.

# Rummage Sale

The Ladies Aid Society of the Christian church will hold a Rummage Sale on East Temple street, Friday, October 1st. Everyone having clothing or anything that will sell please call Citizens phone 4416 or Bell 485. 22513

# POST IS NAMED TO SUCCEED IRELAND

Hon. J. D. Post has been named by Secretary of State Hildebrandt to succeed Horace Ireland as Chief of the Board of Deputy State Supervisors of Elections, the latter having tendered his resignation sometime ago, and Mr. Post receiving the appointment several days ago.

# LEGION OF HONOR.

The French Order, its Ranks and its Limits of Membership.

The Legion of Honor is a French order for the recognition of military and civil merit, instituted by Napoleon while consul May 19, 1802, and inaugurated July 14, 1804. The decoration originally consisted of a star containing the portrait of Napoleon surrounded by a wreath of oak and laurel, with the legend, "Napoleon Empereur des Français;" on the reverse was the French eagle with a thunderbolt in his talons and the legend, "Honneur et Patrie."

The order has been remodeled several times, the last occasion being subsequent to the downfall of the second empire. There are now five ranks or classes—ordinary chevaliers or knights, officers, commanders, grand officers, grand crosses. The profuse granting of the decoration of the order latterly brought the institution into discredit, and the number of chevaliers is now restricted to 25,000, the officers to 4,000, the commanders to 1,000, the grand officers to 200 and the grand crosses to seventy.

The star now bears a figure emblematic of the republic, with the inscription, "Republique Française, 1870;" on the reverse two flags, with the inscription, "Honneur et Patrie."—Philadelphia Press.

# USE OF OLIVE OIL.

Reasons Why It Should Have More Prominence in Cooking.

Americans are not, generally speaking, liberal enough in the use of olive oil. It should occupy a more prominent place in cooking.

Any olive oil left in the pan after frying can be filtered through cheesecloth and kept in a cool place for future use. Olive oil can be used repeatedly. It should be hot before the article to be fried is placed in the pan.

Olive oil is capable of having the temperature raised to over 600 degrees before it burns. Butter burns at a little over 200, suet at about 300 and lard at 235. It will be seen that butter is a poor frying medium, as food must be kept at too low a temperature or it scorches, while with oil the high degree quickly coats the outside of the article with a crust that prevents the oil from penetrating.

Rub the preserving kettle with olive oil to prevent fruit from burning.

Use olive oil in recipes when possible where butter is called for. It is especially delicious in soft gingerbread, salad dressing and baked beans.—New York Sun.

# Feet of a Cat.

There is nothing especially striking about the feet of a cat except its ability always to land on them. Hold a young cat by its feet a short distance from the ground for a few seconds and then let go. The cat's back, being heavier than its feet, should strike the ground first. But it doesn't. Just as the cat is being let go it gives a quick upward thrust with its chest, and as the feet are freed they swing under it so it lands on them. In the case of the young cat that has never experienced this before it doesn't know that it is going to be dropped. If it were a long drop there would be time to think, but in the short drop the cat must act, and act immediately. In fact, it is really forehanded. The natural conclusion, then, is that this faculty in the cat is located in its feet. It is inherent in them.—Atlanta Constitution.

# Sharks' Eggs.

The eggs of fishes are usually small, soft and inconspicuous. The most remarkable point about them is the extraordinary number laid by the individual. A single cod lays as many as 9,000,000 eggs. Sharks lay eggs which are large in size, few as to numbers and are deposited singly instead of in masses. These eggs consist of a dark colored leathery envelope and are usually adorned with frills, horns or long twisted tendrils. These appendages serve the purpose of keeping the egg case supported among the branches of seaweeds, thus preserving the embryo from the damage it would sustain were the egg carried hither and thither by the waves.—Scientific American.

# Precept and Example.

"Colonel, that was an admirable speech you made at the club the other evening on the obligations of citizenship. I've been intending to tell you so ever since I heard it. We need more of that kind of talk nowadays. But what are you looking so gloomy about this morning, colonel? No bad news, I hope."

"Dash it all, yes! I've been drawn on a jury!"—Chicago Tribune.

# Mount Etna.

Etna, the "burning mountain," is the mightiest volcano in Europe. It is 10,800 feet high. If you wished to walk round its base you would have to walk ninety miles. It slopes steadily on all sides up to the highest crater, which is nearly a mile broad.

# Current Bushes.

In Porto Rico, where the air is moist and balmy, air plants grow on the telephone and telegraph wires. The insulation rots in places, and there the plants take root and thrive. These plants are called "current bushes" or "electric light plants."

# Same Voice.

"Before I married my wife I could listen to her voice for hours and hours." "And now?" "Now I have to."—Houston Post.

Honor is not won until some honorable deed be done.—Marlowe.

# "PLAY IT SAFE."

"Nobody out, Bill; play it safe."

If you have ever attended a ball game you have probably heard that remark and appreciate it's meaning.

It's a good warning to remember when you are buying a new suit. Play it safe. Buy a suit that you know is value; one that positively will afford you the utmost satisfaction—It will not cost you any more than the other kind.

In clothes from \$10.00 to \$20.00 Clothcraft Clothes are the kind that protect you. Desirable from every point of view, they go a long way towards simplifying your future clothes problems.

The guarantee that goes with them is your protection—see that it is in the inside pocket of the coat.

# Katz's Corner

# The Clothcraft Store

"Sunny side of the street" will happen along next winter, just as though the shady side had had its day all summer.

Carranza's attitude recalls the old pun on sectarian disputes, "Orthodoxy is my doxy and heterodoxy yours."

Judging from their insipidity, some watermelons needed a real raincoat out there in the patch.

Genius Recognized.  
"It's a pity that Shakespeare is dead," remarked the old playgoer.  
"Yes," replied the modern manager, "What a moving picture scenario he could have written!"—Washington Star.

Joined Right Off.  
Lady (interviewing girl)—I may tell you that we are vegetarians. Girl (anxious to be hired)—That's my church, too, mum.—Boston Transcript.

# Lion Brand Shoes

# For Men and Boys

The shoe pictured is made of DOUBLE SERVICE chrome, which is far superior to the average elk now used in Outing Shoes. The soles are of indestructible chrome, and easily outwears two pairs of oak soles. The price is

\$1.90 and \$2.50

We have a complete showing of LION BRAND Shoes, including a great line of Hi-Cuts in 10, 12, 15, 18 inch tops.

The prices will convince you that we can save you money on strictly high-grade footwear.

# YOUNG MAN IS BOUND OVER ON A PERJURY CHARGE

Ray English, of this city, a witness in the case of Ada Hays against J. W. Hays, in probate court, was Thursday afternoon bound over to the grand jury on a charge of perjury, and his bond was fixed at \$300. This was furnished, C. L. Baker becoming his bondsman.

The charge against young English grew out of testimony of a highly sensational character, given under oath in the above mentioned case, and in which his words reflected greatly against the plaintiff in the action. The name of a traveling patent medicine vender was mentioned

## PERSONAL PARAGRAPHS

Rev. Frederick E. Ross and daughter Miss Evelyn started Friday to motor through to their new home in Ironton. Mrs. Ross and son Malcolm join them Saturday.

Mr. Charles F. Bonham was called to Cincinnati Friday by the illness of his cousin, Mr. Scott Bonham.

Hon. H. L. Hadley continues to improve at the home of relatives in Arlington, Mass., and his attending physician expects him to be able to start for his home in this city next week.

Mr. Harry H. Stewart, who has been visiting his parents, Mr. and Mrs. G. W. Stewart, south of town, and his aunt, Miss Lissa Stewart, on E. Court street, left Friday morning for Kirksville, Mo., to enter the Osteopathic college.

Mrs. Spencer Calvert is rallying as well as possible from a serious operation, performed by Dr. Drury, of Columbus, at the Fayette Hospital and her many friends are confidently hoping for her continued improvement.

Mrs. E. A. Parrett attended the W. C. T. U. convention in Dayton, as delegate from the Cook's Station chapter. Mrs. W. H. Fulton accompanied her.

Mr. and Mrs. Frank Garringer, Miss Alta Garringer, Mr. and Mrs. Wilbur Bush attended the Fall Festival at Chillicothe this week.

Mr. and Mrs. John Brown of Bloomingburg and Mr. and Mrs. S. E. Simmons motored over to Chillicothe Thursday to attend the Fall Festival.

Mrs. S. E. Simmons has resumed her position in the Bybee millinery store for the fall season.

Mr. and Mrs. Jos. B. Gordon of Frankfort, O., are the guests of Mr. and Mrs. Will Hetteshimer.

Mrs. Harry Chapman of Detroit, Mich., is the week end guest of Mr. and Mrs. Will Hetteshimer.

Mr. and Mrs. Will Hetteshimer and Mr. Wm. Turner and Miss Grace Paul motored to Chillicothe Thursday evening to attend the Fall Festival.

Miss Wilma Hammer, who is attending Bliss Business College,

in the testimony given by English. Soon after he had testified Mrs. Hays, thoroughly aroused by the charges made by the young man and which she brands false in every detail, filed an affidavit before Justice Craig in which she charged English with perjury.

The case came up for hearing Thursday and after several witnesses had been examined and testified to the falsity of the statements made by English, Judge Craig bound him over to the grand jury.

Should he be indicted and convicted, a term in the penitentiary will be the punishment meted out.

comes home this evening to spend Sunday with her mother, Mrs. W. H. Hammer.

Miss Lavon Turner of Jeffersonville spent the past two days with her brother Wm. Turner, on West Market street.

The Misses Grace and May Duffee have returned from a couple of days' stay in Columbus.

## MARY S. CHANGES HANDS THIS WEEK

Mary S., a very handsome and speedy little pacer, owned by Jack DeWitt of this city, was sold this week to Geo. W. Snider of Wellston, Ohio. She was sired by G. W. D. 2:08 1/4 and her first dam the brood mare Fire Wilksview, who sired the dam of Kenneth Mack 2:17 1/4 and other performers of note.

Mary S attracted attention last fall when she pulled a top buggy a half mile over our local track in 1:15. Since she is absolutely untrained this performance distinguished her as a bright prospect in harness circles and her future will be watched with interest by the harness loving public.

## BOY SCOUTS WILL CAMP OUT TONIGHT

A half score of Boy Scouts will leave the Y. M. C. A. at five o'clock this evening for a two mile hike into the country where they will pitch their tents for the night, do their own cooking and rough it until Saturday morning, when they return to this city.

The boys will probably go to the Procter farm and pitch their tents in the open. The object of such "hikes" is to promote self-reliance, health and usefulness generally.

The Scouts will be in charge of Junior Secretary Elliott.

## V. M. DURFLINGER AT DEATH'S DOOR

Mr. V. M. Durflinger, aged 75 years, father of Clerk of Courts E. W. Durflinger, is in a very critical condition at his home just east of Yatesville, and it is feared that he cannot survive the next 24 hours.

All day Mr. E. W. Durflinger has been at the bedside of his father, and at 2:30 o'clock no change for the better had been recorded.

See our line of Ladies' and Children's Sweaters, Rain Coats and Hats

## WILL BUILD SWITCH ON NORTH FAYETTE

Unless present plans are changed by the B. & O., that road will construct a siding along the main line near the northern terminus of North Fayette street, where the work of filling in the street has been under way for several years, and the fill is nearly completed.

It will be necessary for the road to make a considerable fill about the head of the street to make room for the Thornton coal yards, which, it is understood, will be located there.

## PAPER SUSPENDS

The daily paper which started in Wilmington in July quit publication this week. The editor and manager it is understood, closed the office one evening last week and left town leaving many unpaid bills both to printing machinery and paper houses and local creditors, also that his employees had not been paid their salaries for several weeks.—Hillsboro News-Herald.

## CLINTON COUNTY COMMISSIONERS HERE

The Clinton County Commissioners were in the city Friday afternoon to meet with the Fayette commissioners on the Jennie Shoop Joint County ditch.

The meeting was under way at press time.

The largest reptile is the man eating salt water crocodile of southern Asia and Australia. It measures thirty feet in length from end of nose to tip of tail.

## PENSION ROLL IS DECREASING RAPIDLY

Death decreased the government's Civil war pension roll nearly ten percent during the last fiscal year, according to the annual report of Commissioner of Pensions Saltzgar, made public September 22. A total of 396,370 Union veterans remained on the roll July 1, 32,255 less than a year ago. Payments to Civil war pensioners during the year totaled \$156,668,771, compared with \$172,417,546 in 1914.

Available records of the pensions office show the total death toll since the close of the war has been 1,816,995. In that period the federal government has paid to veterans, their widows and children \$4,614,643,267.

## CLASSIFIED

FOR SALE—Good square Chickering piano. A bargain for spot cash. Inquire at Holdren's Studio. 225t6

FOR RENT—8 room house, new paper and paint; city water, \$12.00. The Fayette Renting Agency, 6 Pavey Bldg. 225t6

FOUND—Auto tire, on Chillicothe pike. Frank E. Haines. 225t1

City tourists through the fruit growing regions have had an object lesson in seeing stuff rotting in the orchards for which they would pay fancy prices at home. Nothing can be done about it now except bear the fact in mind until the time comes to co-operate in banishing the evil.

The president of China says that none but a fool wants to be emperor. But, Mr. Kai, republicanism should teach the subject that it is his duty to be at the call of his country for any role where he can serve best and under whatever commission is handed him.

More and more the idea is expressed that this country will be rich and prosperous when war impoverished Europe is out for loot, gun in hand. Then why put temptation in Europe's way by parading our wealth?

## "DOWN IN ALABAMA" A SPLENDID PLAY

The Loyal Daughters class of the Christian church has arranged with Mr. J. Bassett Willard, of the Willard Entertainment Bureau, Franklin, Ohio, for a date with his popular and extremely funny entertainment entitled "Down in Alabama," a dramatic, pastoral picture of early plantation life in the sunny south, and fixed upon the date of Friday evening, October 22nd at the Opera House.

This entertainment has been a very great success in all parts of the country. It is a delicious compound

of pure, clean, wholesome, jolly fun. Mr. Herschel Williams. They will All of the coaching will be attended also play two leading comedy parts, to by Mr. Willard and his assistant, advt.

## AUSTRIA WILL HEAR DUMBA

Vienna, Sept. 24.—Political circles are inclined to the opinion that the foreign office will await the arrival of Ambassador Dumba and hear his personal explanation of his activities in the United States and the interrupted letter before acting on Washington's request for his recall. In the meantime, it is expected that the Austrian government will detail Kajetan Mery von Kapos-Mere, the former Austrian ambassador to Italy, to act as ambassador pro tem to the United States. Dumba's dispatch requesting leave to return here has been received by the foreign office.

## DOWD DENIES EVERY CHARGE

Columbus, Sept. 24.—John W. Dowd, chairman of the Lucas county election board, testified in the election board removal case that the board never had succeeded in getting a list of residents of hotels and lodging houses. Hotelkeepers took the position the state couldn't compel them, without pay, to perform the labor of getting up the lists. Dowd, against whom the charges heard by Hildebrand were filed and who was renominated on the board by the court on the ground he had been removed without hearing, denied in detail every one of the charges.

# BERLIN REPORTS GAINS IN EAST

## Hindenburg Penetrates Positions Near Dvinsk.

### FALL OF CITY INEVITABLE

Russian Forces Said to Be Evacuating the Town of Minsk—Balkan Situation Still a Riddle, Say British Experts—French Air Fleet in Fresh Raids—Cannonading Continues On the Western Front.

London, Sept. 24.—The German war office at Berlin announces that the new German offensive movement which has as its object the capture of the important Russian fortified city of Dvinsk, has made definite progress. The war office announced that Russian advanced positions west of the city had been penetrated, and that more than 2,000 prisoners and several machine guns had been captured. News of the capture of Dvinsk by the Germans is expected at Berlin within forty-eight hours, despite the tremendous obstacles which the lakes and swamps west and south of the city offer to the attacking troops. Great pine forests west of Dvinsk, in the region of Novo Alexandrovsk, have been set on fire by the Russians to compel a retirement of the Germans from their advanced positions, and for miles the countryside is a seething furnace.

In the section east of Vilna, the Germans have now pushed forward till they are forty-five miles southeast of that city, and they are attacking the Russian rear guard between Smorgonie and Molodetschno.

The greatest uncertainty still exists even in official circles in London as to the intention of King Ferdinand of Bulgaria and his advisers. The entente representatives at Sofia and other Balkan capitals are still busy trying to reconstruct the Balkan league and thus prevent Roumania, Bulgaria, Greece and Serbia from

fighting among themselves. As the Bulgarian government appears to have made up its mind, despite the opposition of some parties, it seems likely that these diplomatic efforts will have many difficulties to overcome.

An Athens dispatch received here states that Bulgaria has canceled its mobilization order.

The central powers have already commenced their attempt to make their way through Serbia, and one of the intervening neutral countries to the Aegean sea. With Russia more than holding her own against the Austro-Germans in Galicia and Volhynia, it is believed here that the Balkan powers would hesitate before going contrary to the wishes of their big neighbor and protector.

Prince Leopold of Bavaria has made a slight further advance, but Field Marshall Von Mackensen and his Austrian colleagues in the south are at a standstill, or are even being pushed back by the Russian commander, General Ivanoff.

### Raids by French Airmen.

The French air fleet again co-operated with the artillery in the bombardment of German railway stations and signaling point.

A French dirigible was in action in the Vosges, north of Wisenbach, dropping bombs on railway stations, which are a part of a German signaling system, while French aeroplanes compelled several German captive balloons to descend. Other activities of French aviators are noted from Ofendbourg, Conflans and Voumiere, and at Langemarck and Middelkerke, in Belgium.

The artillery on both sides continues its activity along the western line with particularly heavy bombardments on the sectors of Sochez, Neuville and Arras. Infantry action, in which hand grenades and mines figured, is reported in the region of Quennevieres, south of the Avra, and between the Meuse and the Moselle.

Dispatches reaching Paris from Holland say that the German positions in Belgium have been heavily reinforced in the past few weeks and the fortifications of Lille restored and strengthened in anticipation of an offensive by the allies before the autumn rains set in.

matter has been progressing both smoothly and as rapidly as the men who have been engaged could expect.

It was agreed that very little remains to be done now, a very few details settled, before the transaction may move to a formal stage. No decisive action will be taken of course until after M. Bark, the Russian minister of finance, has had his interview with Chancellor of the Exchequer McKenna in London, but the general opinion appeared to be that Russia will not be a party signatory to the bonds. It is now known as the Anglo-French loan, one man pointed out, and very likely that will be the official title in the end. Of course it was admitted Russia might become a party.

One thing seems well settled, and that is both sides have agreed that in order to stabilize exchange and open a sure market for the surplus American crops and manufactures of normal export, an amount not less than \$500,000,000 will be required.

## ROCKEFELLER HOPES TO END COLORADO ROW

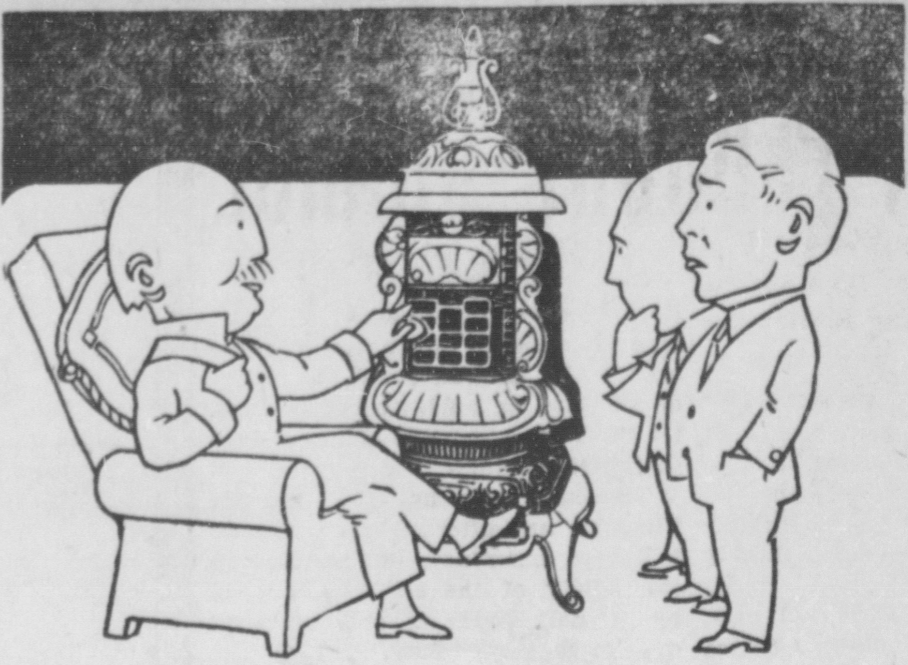

Denver, Colo., Sept. 24.—John D. Rockefeller, Jr., disclosed the plan by which he hopes permanently to end Colorado's industrial warfare. This plan is to build up an intimate relationship between the humblest workman in the mines and the officials of the Colorado Fuel and Iron company, including himself. Mackenzie King, social welfare expert of the Rockefeller foundation, who is accompanying Mr. Rockefeller, said: "There is to be no recognition of the United Mine Workers as a result of Mr. Rockefeller's visit to Colorado. Our new system of welfare work under which employees are allowed to name grievance committees to protest to mine superintendents against conditions they don't like is the Colorado Fuel and Iron company's answer to demands of the union for recognition."

### MACCABEE MEETING.

## BULGARIA'S NEW ARMY DESCRIBED

Berlin, Sept. 24.—The German press gives some figures concerning the strength of the new Bulgarian armies. According to these figures, the Bulgarian army organization consist of ten infantry divisions, each having three brigades, twenty-four battalions, two squadrons, thirteen to fifteen batteries, besides mountain guns. In addition each division has cavalry fighting power. A division of three brigades, according to the German figures, is estimated to have 24,000 rifles, 24 machine guns, 200 troopers, 72 field guns, four field howitzers and 8 to 12 mounted guns. This works out at 240,000 rifles, 240 machine guns, 8,000 cavalry, 720 field guns and 40 howitzers. Besides the mountain weapon there is a field reserve of 20,000, and in addition to these a sort of semi-trained militia, corresponding to the German landsturm.

## CHICAGO TEACHERS SCORE ONE POINT

Chicago, Sept. 24.—Judge John M. O'Connor issued to the Chicago Teachers' Federation an injunction restraining the board of education from putting into effect its recently adopted rule whereby teachers were forbidden membership in any organization affiliated with organized labor. Announcement was immediately made by attorneys for the board that an appeal would be taken.

## PLEADS FOR WIDE ROADS

Cleveland, Sept. 24.—Resolutions recommending that all future road improvement be made wide enough to accommodate horse-drawn vehicles in passing automobiles were adopted at the closing session of the Carriage Builders' National association. Cincinnati was chosen as the convention city for 1916.

## ON BATTLEFIELDS

Chattanooga, Tenn., Sept. 24.—The Ohio general assembly, on its annual reunion, arrived here on a special train of the Cincinnati Southern railroad. The solons are the guests of the Chamber of Commerce. Missionary Ridge and Lookout Mountain were visited today. The legislators will return to Cincinnati tonight.

## SECOND FAST BRINGS CURE

ASHLUDIA, O., Sept. 24.—Dr. H. G. Huffman, a Youngstown oculist, last year fasted for forty-seven days as an experiment in the interest of his health. He declared the result was all that he had hoped for. He has just concluded another fast—this time of thirty-one days—and announces he has completed his cure. He is soon to marry a Youngstown young woman.

## DRIVE RUSS FROM MINSK

Petrograd, Sept. 24.—Russian military authorities have ordered the evacuation of Minsk by its civilian population. The evacuation is now in progress. Minsk is at the junction of two railways, one running to Moscow. It is 475 miles southwest of Petrograd, 450 miles west of Moscow and 100 miles southeast of Vilna. The city has a population of over 100,000. German troops are now assailing Dvinsk by land, by water and by air.

## WANTS BALM, TRIES COURT

Dayton, O., Sept. 24.—Claiming that his discharge from the service of an undertaker followed his participation in the national guard encampment at Yellow Springs, James H. Huffman, a member of Company G, Third Ohio volunteers, brought suit against his former employer, asking for a judgment of \$300.

# THE GERMAN NOTE UNDER DISSECTION

## Officials Favorably Impressed By Assurances.

### INDEMNITY IN FRYE CASE

American Vessels Carrying Conditional Contraband Not to Be Attacked by Submarines—Proposals of Wilson Acceptable to Berlin. Right of Visit and Search to Be Heeded by German Commanders.

Washington, Sept. 24.—Assurances that German submarines will not under any circumstances sink American vessels carrying conditional contraband of war is contained in a note from the German government, made public at the state department, in which reply is made to the last note of the United States government in the discussion of the case of the

American schooner William P. Frye, sunk by a German cruiser last winter.

Germany gave this assurance "in order to furnish to the American government evidence of its conciliatory attitude," while the question of interpreting the treaty of 1828 is submitted to arbitration. The American suggestion for the naming of experts to fix the indemnity for sinking the Frye is accepted.

As for absolute contraband, such as arms and ammunition, Germany states in its note that "it must reserve to itself the right to destroy vessels carrying absolute contraband wherever such destruction is permissible, according to the provisions of the declaration of London."

Just what the practical operation of the new assurances will be, officials were keenly interested to learn, for under the lists of contraband proclaimed by Germany in retaliation for acts of Great Britain nearly everything previously known as conditional contraband has now been made absolute.

It is not known as yet what attitude the United States will take in its next note, but it is understood that it may reiterate its insistence that the treaty of 1828, and not existing international law, makes American vessels immune from destruction irrespective of their cargoes. Germany, however, is anxious to submit to arbitration what the meaning of the treaty is on this point, and it is possible that if no further cases of damage occur during the pendency of the arbitration proceedings, the American government will be disposed to await the decision of the arbitral tribunal.

One thing which attracted attention in connection with the German note was the evident necessity of submarine commanders under their new orders to exercise the right of visit and search with respect to all American vessels to determine the nature of their cargoes.

The fact that Germany referred to its desire to demonstrate "its conciliatory attitude" toward the United States was regarded by many officials as evidence that the Berlin foreign office is disposed to avail itself of every opportunity to remove causes that have led to the strained relations between the two governments.

## FATAL SCRATCH

Zanesville, O., Sept. 24.—A month ago George B. King, seventy-two, farmer, scratched a finger while digging potatoes, blood poisoning developed and he died.

### SCHOOLS MAY BAR CHILDREN.

Common colds are contagious and boards of health in many cities are considering barring children with colds from school. Foley's Honey and Tar is an old and reliable family medicine and frees children from coughs, colds, croup and whooping cough. Parents may save trouble by giving before school opens. Blackmer & Tanquary. advt.

# MAKE SEARCH TO FIND REAL CAUSE

## City Authorities Probing the Subway Accident.

### WITNESSES ARE EXAMINED

Italian Who Directed the Explosions Appears Before District Attorney and Declares the Usual Precaution Was Taken—Coroner About to Begin Inquiry Into the Affair—No Additional Bodies Found.

New York, Sept. 24.—Official investigations of the Seventh avenue subway disaster by the several interested city departments have not as yet yielded definite results as to the cause and responsibility for the accident.

August Mezzanotte, the blaster who directed the explosions that are generally believed to have caused the collapse of the wooden pavement, and who disappeared immediately after the accident, appeared at the district attorney's office, accompanied by counsel.

# ALEX HAS \$1000 FINE

Chicago, Sept. 24.—Alexander won his thirtieth victory of the season when he defeated the Cubs in the first game of the double header. He will receive \$1,000 reward from the Philadelphia owners for the feat. The second game was won by the Phillies in the fifth round. The pace setters' double win sent the Cubs scampering into the cellar. Scores:

## CONDITION OF CORN GREATLY IMPROVED

The general condition of Fayette county corn is generally improved over that of some ten days ago, and the farmers are now resting under the belief that the crop has passed the critical stage and that if frost holds off for a week or ten days it will not do any damage to the grain itself, although it would play havoc with the green fodder.

Meanwhile the cutting of Fayette's crop is under way and hundreds of farmers are busy with the corn knife, and many persons from the hill counties are aiding them in the Herculean task of gathering the crop into the shock in short order.

The number of persons from the hill counties is noticeably short this year, however, and as the farmers are anxious to have the corn cut so they can sow wheat, the next two or three weeks will be very busy ones among the tillers of the soil.

## ALL WOOL SAMPLES

A large collection to select from. For Boys' Suits from 5 years to 15 years, and from \$5 to \$15. Every suit guaranteed and cut to your own measure.

DEHEART & BARNEY.

Up stairs, Judy Block.

## YOUR INKWELL AT HOME.

Will supply fresh ink at every dip if you use the Sengbush self-closing ink well sold at Rodecker's.

Some clear-sighted business men are saying that local business depressions reported to exist are not fairly traceable to direct results of the European war. Eating and getting clothed, buying and selling, go on here just the same. But the war condition, especially in view of uncertainty as to when and where it will stop, makes the merchant investor cautious and conservative. Sharp changes of value are to be expected. Whether by a slump or a boom is a wild gamble.

## Miss Eugenie Besserer Arrived in New York City With Just 25 Cents—Now a Star in Pictures

Miss Eugenie Besserer, the French emotional actress, had a long experience in the spoken drama before she became a star in motion pictures. She has appeared in the support of Nance O'Neill, Wilton Lackaye and Frank Keenan.

Miss Eugenie Besserer is perhaps the most versatile of motion picture stars, and her appearance in the leading role in Selig Diamond Specials "The Smoldering" and "The Melody of Doom," created world-wide attention. In the following article Miss Besserer tells over her own signature her experiences as an actress.—Editorial Note.

By EUGENIE BESSERER.

You may talk all you please about the "dignity of the stage," but do not forget the "dignity of the motion pictures." Not so long ago it was considered undignified to leave the spoken stage for the silent stage. Those having the temerity to leave the stage for the movies were cause for commiseration. "Miss Jenkins, I see, has gone to the movies, well, well!" Now the shoe is on the other foot. The exclamation may soon be heard: "Miss Jenkins, the well-known movie actress, has returned to the stage, well, well!" To paraphrase an old song: "It shows what a difference just a few years make!"

I was born in Paris, but was taken by my parents to Ottawa, Canada, early in life and I spent my girlhood in Canada. Unfortunately I was left an orphan and later, at the age of 12 years, I escaped from my guardians and found myself an absolute stranger in the great city of New York, with 25 cents in Canadian money in my pocket. Through the kindly aid of a street car conductor and a directory, I succeeded in locating a former Governess whose name I happily remembered. This kindly lady was delighted to see me and with her aid, I discovered the residence of an uncle, with whom I took up my abode.

"I continued my studies and became quite proficient in athletics. I took lessons in fencing and became rather proficient. I shall always remember that I held my own with no less an accomplished swordsman than the late Alexander Salvini.

I had always an ambition to go on the stage, and my first theatrical experience was with McKee Rankin.

## CHICKEN SPECIAL

For Saturday plenty of Young Chickens 15c pound, Young Hens 13c pound. No charge for dressing.

A full line of Fish and Oysters.

Auto delivery at all hours.

CITY MEAT MARKET  
Bell Phone 155. City 421

When he was starring Nance O'Neill. Following this I played engagements with Wilton Lackaye and Frank Keenan, and then came a season in stock at Pike's Opera House, in Cincinnati. Another season I played in drama opposite Henry J. Kolker.

I became wearied of stage life, with its hardships, traveling and hotel life, and again took up the art of fencing at the Berkley Lyceum in New York City. Alice Roosevelt Longworth was one of my pupils. I then again returned to emotional roles on the stage, was fortunate enough to attract the attention of Margaret Anglin and was taken by her as an understudy to Australia.

When I was eighteen years of age I tried my hand at play writing and wrote a drama which was successfully produced. I am also the author of a number of vaudeville successes, notably a fencing playlet, called "An Accident."

The illness of my sister brought me to California. There I became interested as a professional in the artistic possibilities of the motion pictures and concluded to locate in the Golden State, naturally selecting the Selig Polyscope Company as the most desirable association.

It is not only good looks that count for success in motion picture work, one must have physical endurance, a capacity for the hardest kind of labor, and a willingness to follow the mandates of the Director. No matter how long an experience one may have had in dramatic work, no matter how versatile the artist may be, the Director's word in motion picture production is law.

I remember one versatile actor in the cast of "The Circular Staircase," released in five acts as a Selig Red Seal Play. This actor has had many years of experience in the spoken drama. He came to the screen with knowledge of his experience and with knowledge of his own importance. He was not inclined to observe the orders of the Director. The Director selects the types, he selects the costumes to be worn, he orders the entrances and the exits, and life is left to the artist. This particular actor could not understand this procedure. He had been accustomed to having his own way on the stage and there was many a tilt before he could appreciate that movie action must be done as the Director orders, for the Director of Motion Picture production is all responsible and all supreme.

I was delighted to be assigned the character lead as "Aunt Ray Innis" in Mary Roberts Rinehart's great mystery story, "The Circular Staircase." I felt that I was fitted to such a part. As you will probably remember, "Aunt Ray" leases a banker's home. She is a woman with the courage of her own convictions, and when warned to remain away from the summer house she is more resolved to remain right there.

"Aunt Ray" and her servant are aroused at 3 a. m. by the sound of a revolver shot. They venture forth, and the men folks have disappeared, and "Aunt Ray" is horrified to discover a lifeless body huddled in the dark shadows at the foot of the circular staircase from which the five-part production takes its name. The action starts right then and there and is never finished until the final scene where the lovers are reunited.

There is a scene in which I am supposed to do battle with a mysterious stranger in a secret room which I have discovered by means of a tape measure. There is nothing supposititious about this conflict, either. "Put the pepper into this fight," ordered the Director. When it was finished the unfortunate actor in the struggle had his shirt partially torn from his back. To all intents and purposes it was a real fight, and the actor had difficulty in escaping my

clutches and springing to the circular staircase. Then to top it all off, the unfortunate individual had to plunge headfirst down the staircase to his supposed death, and he certainly had earned his money after the day's work was concluded.

I think I have put my very best art into the character of "Aunt Ray Innis" in the Selig Red Seal Play, "The Circular Staircase." I have always been a great admirer of Mrs. Rinehart's writings, and there is every opportunity to put forth one's best endeavors in this story.

A majority of the artists say that motion picture acting is the hardest kind of work. I never deemed it so. I try to forget myself in my part, throw my entire personality into the roles I create and I love the work.

However, it is an art that cannot be acquired by any "school" other than the school of long experience. Actors of years of experience on the stage are the more successful because they have a foundation upon which to work.

## WILL UNCOVER AVERAGE WAGE OF OHIO WORKMEN

By Associated Press.  
Columbus, September 24.—What are the average yearly earnings in Ohio of the average brick mason, coal miner, railway brakeman, street car employe, carpenter, mechanic, attorney, physician, insurance man or any other laboring or professional man?

The state industrial commission, it became known today, expects to gather figures to answer that question. Through the medium of labor

unions, Fred C. Croxton, chief statistician of the industrial commission, will arrange for men to keep a faithful record of their total earnings from all sources throughout the year. Similar records will be sought later from professional men who may volunteer to report their earnings. The plan will be more difficult with such men, Mr. Croxton pointed out, because of their lack of close organization.

YOUR OFFICE INKWELL will give better service and save ink if you use the Sengbush self-closing inkwell on sale at Rodecker's.
